BBC TV and

Servant, self-

styled 'hero of Dundee', addresses life's problems for you, and offers practical solutions you won't find anywhere else.

Peril Random House A New York Times Notable Book, and a "chaotic, laugh riot" (San Francisco Chronicle) of a memoir. Shalom Auslander was raised with a terrified respect for God. Even as he grew up and was estranged from his community,

his religion and its traditions, he could not find the path to a life where he didn't struggle daily with the fear of God's formidable wrath.

Foreskin's Lament reveals Auslander's "painfully, crippling, incurably, miserably religious" youth in a strict, socially isolated Orthodox Jewish community, and recounts his rebellion and efforts to make a new life apart from it. His

combination of unrelenting humor and anger renders a rich and fascinating portrait of a man grappling with his faith and family.

Life, Lemons and Melons University of Illinois Press #1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a

climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why

we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce

emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we

as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach. *Emails from an Asshole* Birlinn Delayed Departure contains all that is needed for anyone interested in

embarking on the important work of soul rescue, with illustrations taken from the author's own practice. *Other People's Money* Crown Private investigator Kinsey Millhone gets entangled in a minefield of a missing persons case in this thriller that "crackles with suspense and pops with surprises" (Newsday). Kinsey Millhone never sees it coming. She is mired in the case of a doctor who disappeared,

his angry ex-wife, and beautiful current one-a case that is full of unfinished business, unfinished homes, and people drifting in and out of their own lives. Then Kinsey gets a shock. A man she finds attractive is hiding a fatal secret—and now a whole lot of beauty, money, and lies are proving to be a fatal distraction from what Kinsey should have seen all along: a killer standing right

before her eyes...

Performing Environmentalisms

examines the existential challenge of the twenty-first century: improving the prospects for maintaining life on our planet. The contributors focus on the strategic use of traditional artistic expression--storytelling and songs, crafted objects, and ceremonies and rituals--performed

during the social turmoil provoked by environmental degradation and ecological collapse.

Highlighting alternative visions of what it means to be human, the authors place performance at the center of people's responses to the crises.

Such expression reinforces the agency of human beings as they work, independently and together, to address ecological dilemmas. The essays add these people's

critical perspectives--gained through intimate struggle with life-altering force--to the global dialogue surrounding humanity's response to climate change, threats to biocultural diversity, and environmental catastrophe. Interdisciplinary in approach and wide-ranging in scope, *Performing Environmentalisms* is an engaging look at the merger of cultural expression

and environmental action on the front lines of today's global emergency. Contributors: Aaron S. Allen, Eduardo S. Brondizio, Assefa Tefera Dibaba, Rebecca Dirksen, Mary Hufford, John Holmes McDowell, Mark Pedelty, Jennifer C. Post, Chie Sakakibara, Jeff Todd Titon, Rory Turner, Lois Wilcken *Global Crime, Online Sleuths, and the Bold Future of News* Bloomsbury

Publishing USA Ocean Country is an adventure story, a call to action, and a poetic meditation on the state of the seas. But most importantly it is the story of finding true hope in the midst of one of the greatest crises to face humankind, the rapidly degrading state of our environment. After a near-drowning accident in which she was temporarily paralyzed, Liz Cunningham crisscrosses

the globe in an effort to understand the threats to our dazzling but endangered oceans. This intimate account charts her thrilling journey through unexpected encounters with conservationists, fishermen, sea nomads, and scientists in the Mediterranean, Sulawesi, the Turks and Caicos Islands, and Papua, New Guinea. REPRINT. Originally published in 1920 by Eyre & Spottiswoode. Paperback. 95 p. The Protocols of the Elders of Zion is a tract alleging a Jewish and Masonic plot to achieve world domination. Purportedly written by a secret group of Jews known as the Elders of Zion, the document underlies 24 protocols that are supposedly followed by the Jewish people. The Protocols has been proven to be a forgery. The forgery contains numerous elements typical of what is known in literature as a "False Document" a document that is deliberately written to fool the reader into believing that what is written is truthful and accurate even though, in actuality, it is not. It is also one of the best-known and most-discussed examples of literary forgery, with proof of its fraudulent origin going as far back as 1921. The forgery is also an early example of "Conspiracy Theory" literature. Written in the first person singular, the text embodies generalizations, truisms and platitudes on how to take over the world: take control of the media and the financial institutions, change the traditional social order, etc. It does not contain specifics

This at Your PerilThe Bob Servant Emails From the #1 New York Times bestselling author of Anathem, Reamde, and Cryptonomicon comes an exciting and thought-provoking science fiction epic—a grand story of annihilation and survival spanning five thousand years. What would happen if the world were ending? A catastrophic event renders the earth a ticking time bomb. In a

feverish race against the inevitable, nations around the globe band together to devise an ambitious plan to ensure the survival of humanity far beyond our atmosphere, in outer space. But the complexities and unpredictability of human nature coupled with unforeseen challenges and dangers threaten the intrepid pioneers, until only a handful of survivors remain . . . Five thousand

years later, their progeny—seven distinct races now three billion strong—embark on yet another audacious journey into the unknown . . . to an alien world utterly transformed by cataclysm and time: Earth. A writer of dazzling genius and imaginative vision, Neal Stephenson combines science, philosophy, technology, psychology, and literature in a magnificent work of

speculative fiction that offers a portrait of a future that is both extraordinary and eerily recognizable. As he did in *Anthem*, *Cryptonomicon*, the *Baroque Cycle*, and *Reamde*, Stephenson explores some of our biggest ideas and perplexing challenges in a breathtaking saga that is daring, engrossing, and altogether brilliant. The transition from President

Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as # 1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil,

resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. Peril is supplemented throughout with never-

before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while

navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. "We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. Peril is the extraordinary story of the end of one presidency and the beginning of

another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with Fear and Rage. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M. Nixon's final days. Ten Arguments for Deleting Your

A blueprint for how parents can stop worrying about their children's future and start helping them prepare for it, from the cofounder and CEO of one of America's most innovative public-school networks "A treasure trove of deeply practical wisdom that accords with everything I know about how children thrive."-- Angela

In 2003, Diane Tavenner cofounded the first school in what would become Summit Public Schools, which has since won national recognition for its exceptional outcomes: 99 percent of students are accepted to a four-year college, and its students graduate college at twice the national average. But in a radical departure from the

environments created by the college admissions arms race, Summit students aren't focused on competing with their classmates for rankings or test scores. Instead, students spend their days solving real-world problems and developing the skills of self-direction, collaboration, and reflection, all of which prepare them to succeed in college, thrive in today's workplace, and lead a secure and

fulfilled life. Through personal stories and hard-earned lessons from Summit's exceptional team of educators and diverse students, Tavenner shares the learning philosophies underlying the Summit model and offers a blueprint for any parent who wants to stop worrying about their children's future--and start helping them prepare for it. At a time when many students are

struggling to regain educational and developmental ground lost to the disruptions of the pandemic, Prepared is more urgent and necessary than ever.

A Beginner's Guide to Soul Rescue

Martino Publishing
For readers of Roddy Doyle, Nick Hornby, and Mark Haddon, *The Adulterants* is a piercingly funny—and cringingly poignant—take on how hard it is to grow up and how

hard it is when you don't. Ray Morris is a tech journalist with a forgettable face, a tiresome manner, a small but dedicated group of friends, and a wife, Garthene, who is pregnant. He is a man who has never been punched above the neck. He has never committed adultery with his actual body. He has never been caught up in a riot, nor arrested, nor tagged by the state, nor

become an international hate-figure. Not until the summer of 2011, when discontent is rising on the streets and within his marriage. Ray has noticed none of this. Not yet. *The Adulterants* would be a coming-of-age story if its protagonist could only forget that he is thirty-three years old. Throughout a series of escalating catastrophes, our deadpan antihero keeps up a merciless mental

commentary on the foibles and failings of those around him, and the vicissitudes of modern urban life: internet trolls, buy-to-let landlords, open marriages, and the threat posed by more sensitive men. But the wonder of *The Adulterants* is how we feel ourselves rooting for Ray even as we acknowledge that he deserves everything he gets.

First published in 1999, Mary Pattillo's *Black Picket Fences* explores an American demographic group too often ignored by both scholars and the media: the black middle class. Nearly fifteen years later, this book remains a groundbreaking study of a group still underrepresented in the academic and public spheres. The result of living for three years in "Groveland," a black middle-class neighborhood on Chicago's South Side, *Black Picket Fences* explored both the advantages the black middle class has and the boundaries they still face. Despite arguments that race no longer matters, Pattillo showed a different reality, one where black and white middle classes remain separate and unequal. Stark, moving, and still timely, the book is updated for this edition

with a new epilogue by the author that details how the neighborhood and its residents fared in the	recession of 2008, as well as new interviews with many of the same neighborhood residents featured in the original.	Also included is a new foreword by acclaimed University of Pennsylvania sociologist Annette Lareau.
