Volume 1 of 3 of a collection of spiritual discourses by Shri Atmananda (Krishna Menon, 1883-1959), a living representative of the tradition of Advaita Vedanta and one of the great sages of the modern world. The discourses were recorded during the period of 1950 to 1959 by a trusted disciple. They are short and masterful talks on realizing the

Truth through a recognition that our nature is always pure Consciousness. Bombay Cinema London : J. Murray  
Explorations of science, technology, and innovation in Africa not as the product of “technology transfer” from elsewhere but as the working of African knowledge. In the STI literature, Africa has often been regarded as a recipient of science, technology, and innovation rather than a maker of them. In this book, scholars from a range of disciplines show that STI in Africa is not merely the product of “technology transfer” from elsewhere but the working of African knowledge.

Their contributions focus on African ways of looking, meaning-making, and creating. The chapter authors see Africans as intellectual agents whose perspectives constitute authoritative knowledge and whose strategic deployment of both endogenous and inbound things represents an African-centered notion of STI. “Things do not (always) mean the same from everywhere,” observes Clapperton Chakanetsa Mavhunga, the volume's editor. Western, colonialist definitions of STI are not universalizable. The contributors discuss topics that include the trivialization of indigenous knowledge under colonialism; the creative labor of chimurenga, the transformation of everyday surroundings into military infrastructure; the role of

enslaved Africans in America as innovators and synthesizers; the African ethos of “fixing”; the constitutive appropriation that makes mobile technologies African; and an African innovation strategy that builds on domestic capacities. The contributions describe an Africa that is creative, technological, and scientific, showing that African STI is the latest iteration of a long process of accumulative, multicultural knowledge production. 10.6069/9780295748856 Beginning in the late nineteenth century, India played a pivotal role in global conversations

about population and reproduction. In *Reproductive Politics and the Making of Modern India*, Mytheli Sreenivas demonstrates how colonial administrators, postcolonial development experts, nationalists, eugenicists, feminists, and family planners all aimed to reform reproduction to transform both individual bodies and the body politic. Across the political spectrum, people insisted that regulating reproduction was necessary and that limiting the population was essential to economic development. This book investigates the often devastating implications of this logic, which demonized some women's reproduction as the cause of national and planetary catastrophe. To tell this story, Sreenivas explores debates about marriage, family,

and contraception. She also demonstrates how concerns about reproduction surfaced within a range of political questions—about poverty and crises of subsistence, migration and claims of national sovereignty, normative heterosexuality and drives for economic development. Locating India at the center of transnational historical change, this book suggests that Indian developments produced the very grounds over which reproduction was called into question in the modern world. The open-access edition of *Reproductive Politics and the Making of Modern India* is freely available thanks to the TOME initiative and the generous support of The Ohio State University Libraries. *Notes on Spiritual Discourses of Shri Atmanand* Princeton University Press

 The name of Raman is familiar to science not only through the effect that bears his name, but also due to derivative names such as stimulated Raman scattering and Raman laser. However, other than that he won the Nobel Prize, little is generally known about the man himself. But the story is fascinating. Raman fiercely cherished his independence and rejected government support for his research. A sharp critic of many government policies, he was often misunderstood and maligned, though his commitment to science and to its growth in India never wavered. Venkataraman's account deals with all these aspects of Raman's life and work, besides placing them in a proper perspective vis-a-vis

the overall Indian scene. Numerous quotations help capture the mood and excitement of those times. The book is not only a lively biography of a colorful personality, but also required reading for anyone with a serious interest in and concern for Indian science.

A remarkable, first-ever collection of 35 essays on India's future, by a diverse set of authors - activists, researchers, media practitioners, those who have influenced policies and those working at the grassroots. This book brings together scenarios of an India that is politically and socially egalitarian, radically

democratic, economically sustainable and equitable, and socio-culturally diverse and harmonious. *Alternative Futures: India Unshackled* covers a wide range of issues, organized under four sections. It explores ecological futures including environmental governance, biodiversity conservation, water and energy. Next, it envisions political futures including those of democracy and power, law, ideology, and India's role in the globe. A number of essays then look at economic futures, including agriculture, pastoralism, industry, crafts, villages and cities, localization, markets, transportation and technology. Finally, it explores socio-cultural futures, encompassing languages, learning and education, knowledge, health, sexuality and gender, and marginalized sections

like dalits, adivasis, and religious minorities. Introductory and concluding essays tie these diverse visions together. Most essays include both futuristic scenarios and present initiatives that demonstrate the possibility of such futures. At a time when India faces increasing polarization along parochial, physical and mental boundaries, these essays provide a breath of fresh air and hope in the grounded possibilities for an alternative, decentralized, eco-culturally centred future. The essays range from the dreamy-eyed to the hard-headed, from the provocative to the gently persuasive. This book would hold appeal for a wide range of readers - youth, academics, development professionals, policy makers, government officials, activists, people's movements, media

persons, business persons - concerned about the current state of India and the world, and willing to engage critically in the collective search for a better future.

Exploring violent confrontation between the state and the population in colonial and postcolonial India, this book is both a study of the many techniques of colonial coercion and state violence and a cultural history of the different ways in which Indians imbued practices of punishment with their own meanings and reinterpreted acts of state violence in their own political campaigns. This work examines state violence from a historical perspective, expanding the study of punishment beyond the prison by investigating the interplay between

imprisonment, corporal punishment, collective fines and state violence. It provides a fresh look at seminal events in the history of mid-twentieth century India, such as the massacre at Jallianwala Bagh, the non-cooperation and civil disobedience movements, the Quit India campaign, and the Hindu-Muslim riots of the 1930s and 1940s. The book extends its analysis into the postcolonial period by considering the ways in which partition and then the struggle against a communist insurgency reshaped practices of punishment and state violence in the first decade after independence. Ultimately, this research challenges prevailing conceptions of the nature of the state in colonial and postcolonial India, which have tended to assume that the state had the ambition

and the ability to use the police, military and bureaucracy to dominate the population at will. It argues, on the contrary, that the state in twentieth-century India tended to be self-limiting, vulnerable, and replete with tensions. Relevant to those interested in contemporary India and the history of empire and decolonisation, this work provides a new framework for the study of state violence which will be invaluable to scholars of South Asian studies; violence, crime and punishment; and colonial and postcolonial history.

In this book, film scholars, anthropologists, and critics discuss starmaking in the contemporary Hindi-language film industry in India, also known as “Bollywood.” Drawing on theories of stardom, globalization, transnationalism, gender, and new media studies, the chapters explore contemporary Hindi film celebrity. With the rise of social media and India’s increased engagement in the global economy, Hindi film stars are forging their identities not just through their on-screen images and magazine and advertising appearances, but also through an array of media platforms,

product endorsements, setting fashion trends, and involvement in social causes. Focusing on some of the best-known Indian stars since the late 1990s, the book discusses the multiplying avenues for forging a star identity, the strategies industry outsiders adopt to become stars, and the contradictions and conflicts that such star-making produces. It addresses questions such as: What traits of contemporary stars have contributed most to longevity and success in the industry? How has filmmaking technology and practice altered the nature of stardom? How has the manufacture of celebrity altered with the recent appearance of commodity culture in India and the rise of a hyper-connected global economy? By doing so, it describes a distinct moment in India

and in the world in which stars and stardom are drawn more closely than ever into the vital events of global culture. Hindi films and their stars are part of the national and global entertainment circuits that are bigger and more competitive than ever. As such, this is a timely book creates opportunities for examining stardom in other industries and provides fruitful cross-cultural perspectives on star identities today. "Grounded in rigorous scholarship as well as a palpable love of Hindi cinema, this collection of 19 essays on a dizzying array of contemporary Hindi film stars makes for an informative, thought-provoking, illuminating, and most of all, a joyful read. Pushing boundaries of not only global Star Studies but also film theory

as a whole, this de-colonised and de-colonising volume is a must read for film scholars, students and cinephiles!" Dr. Sunny Singh, Senior Lecturer - Creative Writing and English Literature, Sir John Cass School of Art, Architecture & Design, London Metropolitan University "A wide-ranging overview of Hindi cinema's filmi firmament today, focussing on its most intriguing and brightest-burning stars. The variety of approaches to stardom and celebrity by both established and upcoming scholars reveals a web of interconnecting stories and concerns that provide fascinating new insights into the workings of today's Hindi film industry, while shining fresh light on contemporary India and the world we live in." So when his parents tell him that his future wife will be attending the same summer program as him—wherein he'll have to woo her—he's totally on board. Because as silly as it sounds to most people in his life, Rishi wants to be arranged, believes in the power of tradition, stability, and

being a part of something much bigger than himself. The Shahs and Patels didn't mean to start turning the wheels on this "suggested arrangement" so early in their children's lives, but when they noticed them both gravitate toward the same summer program, they figured, Why not? Dimple and Rishi may think they have each other figured out. But when opposites clash, love works hard to prove itself in the most unexpected ways.

The rise of strong nationalist and religious movements in postcolonial and newly democratic countries alarms many Western observers. In *The Saffron Wave*, Thomas Hansen turns our attention to recent events in the world's largest

democracy, India. Here he analyzes Indian receptivity to the right-wing Hindu nationalist party and its political wing, the Bharatiya Janata Party (BJP), which claims to create a polity based on "ancient" Hindu culture. Rather than interpreting Hindu nationalism as a mainly religious phenomenon, or a strictly political movement, Hansen places the BJP within the context of the larger transformations of democratic governance in India. Hansen demonstrates that democratic transformation has enabled such developments as political mobilization among the lower castes and civil protections for religious minorities. Against this backdrop, the Hindu nationalist movement has successfully articulated the anxieties and desires of

the large and amorphous Indian middle class. A form of conservative populism, the movement has attracted not only privileged groups fearing encroachment on their dominant positions but also "plebeian" and impoverished groups seeking recognition around a majoritarian rhetoric of cultural pride, order, and national strength. Combining political theory, ethnographic material, and sensitivity to colonial and postcolonial history, *The Saffron Wave* offers fresh insights into Indian politics and, by focusing on the links between democracy and ethnic majoritarianism, advances our understanding of democracy in the postcolonial world. *'Photos of the Gods'* Grove Press  
About 16 centuries ago, an unknown Indian author or authors gathered

together the diverse threads of already ancient traditions and wove them into a verbal tapestry that today is still the central text for worshippers of the Hindu Devi, the Divine Mother. This spiritual classic, the Devimahatmya, addresses the perennial questions of the nature of the universe, humankind, and divinity. How are they related, how do we live in a world torn between good and evil, and how do we find lasting satisfaction and inner peace? These questions and their answers form the substance of the Devimahatmya. Its narrative of a dispossessed king, a merchant betrayed by the family he loves, and a seer whose teaching leads beyond existential suffering sets the stage for a trilogy of myths concerning the all-powerful Divine Mother, Durga, and the fierce battles she

wages against throngs of demonic foes. In these allegories, her adversaries represent our all-too-human impulses toward power, possessions, and pleasure. The battlefields symbolize the field of human consciousness on which our lives' dramas play out in joy and sorrow, in wisdom and folly. The Devimahatmya speaks to us across the ages of the experiences and beliefs of our ancient ancestors. We sense their enchantment at nature's bounty and their terror before its destructive fury, their recognition of the good and evil in the human heart, and their understanding that everything in our experience is the expression of a greater reality, personified as the Divine Mother.
