The book leads the advanced undergraduate through the wide range of disciplines related to an understanding of the interstellar medium and is suitable for any student studying either physics or astrophysics. The study of the interstellar medium incorporates a large range of physical processes on both large and small scales all of which are covered in this text. Together with the inclusion of simple models and problems at the end of each chapter this text provides a comprehensive overview and grounding in the study of the interstellar medium.

**Multiple Choice Questions for CXC Principles of Accounts** Oxford University Press - Children  
This book is primarily intended for anyone taking the Caribbean Advance Proficiency Examinations in Accounting Unit 2, Paper 1. It will also be useful for those who are studying for other Multiple Choice Examinations in Cost and Management Accounting at an Intermediate Level. The book contains over 450 questions arranged into eleven chapters, each covering a different section and topic of the Syllabus. The questions are structured to increase your understanding and give you an opportunity to apply the accounting concepts you have learnt. It will also provide valuable familiarity with the type of questions you are likely to encounter in the examination. The book is meant to be used along with a textbook. I recommend the use of the CAPE Accounting Unit Two, Study Guide, since the chapter headings are similar to the topical headings in this book. The book will also be useful for revision.
