Krishna, Buddha and Christ Unveiled Impact Series

This volume sets forth a new explanation of the meaning of the cult of Mithraism, tracing its origins not, as commonly held, to the ancient Persian religion, but to ancient astronomy and cosmology.

Kevin Annett's story is a David/Goliath epic of one man's fight against the establishment of church and state in support of a subjugated people.
Predictive Astrology of the Hindus Simon and Schuster
In this extraordinary debut, Ashok Ferry chronicles, in a gently probing voice, the journeys of characters seeking something beyond the barriers of nations and generations. His tales of social-climbing Sri Lankans, of the pathos

of immigration, of rich people with poor taste, of ice-cream karma, of innocent love, eternity, and more take us to Colombo's nouveau riche, hoity-toity returnees, ladies with buttery skin and square fingernails, old-fashioned aristocrats, and the poor mortals trapped between them. Ferry's stories comprise characters that are 'serious and fine and upstanding, and infinitely dull', but also others like young John-John, who loses his childhood somewhere 'high up in the air between Asmara and Rome'; the maid, Agnes of God, whose mango-sucking teeth 'fly out at you like bats out of the mouth of a cave'; Ashoka, the immigrant who embodies his Sri Lankan identity only on the bus ride between home and work; and Professor Jayaweera who finds sterile freedoms caged in the 'unbending, straight lines of Western Justice'. Absurd, sad, scathing and generous, but mostly wickedly funny, Colpetty People presents modern Sri Lankans as they navigate worlds between Ceylon and the West.

Hamlet's Mill

Adventures Unlimited Press

The main argument of the book may be summarized as the claim of an early (Neolithic) discovery of the precession of the equinoxes (usually attributed to Hipparchus, 2nd century BCE), and an associated very long-lived Megalithic civilization of "unsuspected sophistication" that was particularly preoccupied with astronomical observation. The knowledge of this civilization about precession, and the associated astrological ages, would have been encoded in mythology, typically in the form of a story relating to a millstone and a young protagonist-the "Hamlet's Mill" of the book's title, a reference to the kenning *Amlóða kvren* recorded in the Old Icelandic *Skáldskaparmál*.^[1] The authors indeed claim that mythology is primarily to be interpreted as in terms of archaeoastronomy ("mythological language has exclusive reference to celestial phenomena"), and they mock alternative interpretations in terms of fertility or agriculture.^[2] *The Hermetic Brotherhood of Luxor* Black Classic Press

Ancient legends, myths,

and religions from around the world have spoken of gods and angels, not always in the spiritual sense, but actual flesh and blood beings interacting with mankind. Many of these ancient cultures had vast knowledge of mathematics and astronomy, attributing their knowledge as being handed down from the gods. Who were these god-like beings, known to one of the oldest civilizations, the Sumerians, as the Anunnaki? This two-part story starts with an amazing discovery in the present day that takes us back hundreds of thousands of years. Follow the Anunnaki on their ancient astronaut journey from Nibiru to Earth and their interactions with humanity's genesis.

The Caduceus, two entwined snakes set upon a rod, was the ancient symbol of Hermes, the Greek god of merchants. Today, it is a common and popular symbol of the medical and allied professions. This book traces the use of the caduceus symbol and answers the question of how it came to be the

symbol of medicine. The book covers its origins in the Greco-Roman world, its use by a medical publisher in the early 19th century, the U.S. army's adoption of the symbol in 1902, and its widespread use after World War I. [Cosmology and Salvation in the Ancient World](#) John Hunt Publishing
Al Biruni, one of the greatest Arab scholars, was born on September 4, 973, in what is now Uzbekistan. He showed talent at an early age and by his early 20's had written several acclaimed papers. Political unrest in his 20's and 30's found him at one point at Gurgan, on the shores of the Caspian Sea. Peace found him in Ghaznah, which is today in Afghanistan. From 1017 to 1030 he travelled extensively in India, becoming fluent in Sanskrit. From this he wrote his monumental survey, *India*, of the history, customs and beliefs of the subcontinent. His other books include *The Chronology of Ancient Nations*, *the Masudic Cannon*, *Book of Instructions*, and more than 100 others, some of which are lost. He died on December 13, 1048, aged 75. He is buried in

Ghaznah. The Book of Instruction in the Elements of the Art of Astrology was written for Lady Rayhanah, to whom it is dedicated. R. Ramsay Wright, the translator, said it could be regarded as a primer of 11th century science. Among its highlights are a comprehensive list of more than 150 Lots, various forms of aspects and planetary relationships, planetary positions relative to the sun, an excellent text on rulerships as well as comprehensive notes on weather and meteorological phenomena. This book was unknown to medieval European astrologers. This edition, comprising the astrological part of the original (sections 347-530) has been taken from Wright's pioneering 1934 translation, itself taken from Persian and Arabic sources. For this edition, text and tables have been reset, and a new index added.

Tales from the Time Loop
SUNY Press

In this highly controversial and explosive book, archaeologist, historian, mythologist and linguist Acharya S. marshals an enormous amount of startling evidence to demonstrate that

Christianity and the story of Jesus Christ were created by members of various secret societies, mystery schools and religions in order to unify the Roman Empire under one state religion. In developing such a fabrication, this multinational cabal drew upon a multitude of myths and rituals that existed long before the Christian era, and reworked them for centuries into the religion passed down to us today. Contrary to popular belief, there was no single man who was at the genesis of Christianity; Jesus was many characters rolled into one. These characters personified the ubiquitous solar myth, and their exploits were well known, as reflected by such popular deities as Mithras, Heracles/Hercules, Dionysos and many others throughout the Roman Empire and beyond. The story of Jesus as portrayed in the Gospels is revealed to be nearly identical in detail to that of the earlier savior-gods Krishna and Horus, who for millennia preceding Christianity held great favor with the people. The Christ Conspiracy shows the Jesus character as not unique or original, not

“divine revelation.” Christianity reinterprets the same extremely ancient body of knowledge that revolved around the celestial bodies and natural forces. The result of this myth making has been “The Greatest Conspiracy Ever Sold.” .

There are many books on Hindu astrology. However their perusal is a problem, particularly for the lay readers who do not know Sanskrit. Therefore the author has presented in this book the quintessence of predictive Hindu astrology in a medium understood worldwide. Hindu astrology is sidereal. But in the West most of the astrologers base their calculations and inferences on the tropical zodiac. To cater to their needs and to enable them to convert a tropical zodiac. To cater to their needs and to enable them to convert a tropical chart into a sidereal one, the author has all through provided instructions so that the students and scholars of the West may take full advantage of this textbook. While sticking mainly to the Western terminology, he has utilized essential Hindu terminology where no

single word in English could have conveyed the full import of the technical term in Sanskrit. Those who are beginners will find that in perusing this book they can start from the scratch and ascend gradually to the high pinnacles of delineation and judgement. Those who are already acquainted with the subject will find many new rules and the discussions enlightening. Review(s) About the Author(s) Pandit Gopesh Kumar Ojha, one of the best astrologers in the world, was a great scholar and pioneer in writing books on vedic Astrology, physiology, palmistry and various branches of samudrica shastra. The Christ Conspiracy St Lynns Press This handbook informs the reader about how much progress we, the human race, have made in enhancing the quality of life on this planet. Many skeptics focus on how the quality of life has deteriorated over the course of human history, particularly given World War II and its aftermath. This handbook provides a positive perspective on the history of well-being. Quality of life, as documented by scientists worldwide, has

significantly improved. Nevertheless, one sees more improvements in well-being in some regions of the world than in others. Why? This handbook documents the progress of well-being in the various world regions as well as the differences in those regions. The broad questions that the handbook addresses include: What does well-being mean? How do different philosophical and religious traditions interpret the concept of well-being within their own context? Has well-being remained the same over different historical epochs and for different regions and subregions of the world? In which areas of human development have we been most successful in advancing individual and collective well-being? In which sectors has the attainment of well-being proven most difficult? How does well-being differ within and between different populations groups that, for a variety of socially created reasons, have been the most disadvantaged (e.g., children, the aged, women, the poor, racial, ethnic, and sexual minorities)? *The Preface to John Flamsteed's Historia*

Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, *The 12th Planet* is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. *The 12th Planet* brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every

3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

Stellar Magic BRILL

Unlike many modern historians, Perry was a diffusionist who believed that modern civilization began in Egypt and was spread via ships to Indonesia, the Pacific Islands, and even to North America. Perry traces the origin of megalithic culture starting in Egypt, and then across the Pacific. Searching for gold, obsidian, and pearls, they travelled across the Pacific to the American Southwest and Mexico.

 An examination of the sacred botany and the pagan origins and rituals of Christmas • Analyzes the symbolism of the many plants associated with Christmas • Reveals the shamanic rituals that are at the heart of the Christmas celebration The day on which many commemorate the birth of Christ has its origins in pagan rituals that center on tree worship, agriculture, magic, and social exchange. But Christmas is no ordinary folk observance. It is an evolving feast that over the centuries has absorbed elements from cultures all over the world--practices that give plants and plant spirits pride of place. In fact, the

symbolic use of plants at Christmas effectively transforms the modern-day living room into a place of shamanic ritual. Christian Rättsch and Claudia Müller-Ebeling show how the ancient meaning of the botanical elements of Christmas provides a unique view of the religion that existed in Europe before the introduction of Christianity. The fir tree was originally revered as the sacred World Tree in northern Europe. When the church was unable to drive the tree cult out of people's consciousness, it incorporated the fir tree by dedicating it to the Christ child. Father Christmas in his red-and-white suit, who flies through the sky in a sleigh drawn by reindeer, has his mythological roots in the shamanic reindeer-herding tribes of arctic Europe and Siberia. These northern shamans used the hallucinogenic fly agaric mushroom, which is red and white, to make their soul flights to the other world. Apples, which figure heavily in Christmas baking, are

symbols of the sun god Apollo, so they find a natural place at winter solstice celebrations of the return of the sun. In fact, the authors contend that the emphasis of Christmas on green plants and the promise of the return of life in the dead of winter is just an adaptation of the pagan winter solstice celebration.
