Annotation. The Certified Ethical Hacker (CEH) is a professional certification provided by the

International Council of E-Commerce Consultants (EC-Council.) An Ethical Hacker is one name given to a Penetration Tester. An ethical hacker is usually employed by an organization who trusts him to attempt to penetrate networks and/or computer systems, using the same methods as a hacker, for the purpose of finding and fixing computer security vulnerabilities. This book is a perfect review for people who are knowledgeable on the subject of ethical hacking, desire certification, and want that last minute review and prep guide before going in for the exam. It is cost effective and to the point! Many guides already exist to teach the subject of ethical hacking. This book is great. Why? Well it's not just because its a great study guide for the CEH exam (Certified Ethical Hacker), but also for the amount of info crammed into a small book. If you're wanting to learn the basics of ethical hacking, then this is the book. Its a quick read, packed full of interesting workable scenarios. What this book is: 1. A great book for your junior security people. 2. Very easy to work through the chapters as labs. 3. Lots of references to cool information you can find and download.

CEH Certified Ethical Hacker All-in-One Exam Guide, Fifth Edition Sybex

An Ethical Hacker is one employed to undertake an attempt to penetrate networks and systems using the same methods and techniques as a hacker. This individual is expected to help in achieving optimal information security posture through scanning, testing, hacking and securing their own systems. This exam has 125 questions. The candidate has 4 hours to answer all the questions. We create these self-practice test questions referencing the concepts and principles currently valid in all these exams. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The

questions are NOT designed to "simulate" actual exam questions. "realistic" or actual questions that are for cheating purpose are not available in any of our products.

CEH can be said as a certified ethical hacker. This certification is a professional certificate and it is awarded by the EC council (international council of E-commerce consultant). An ethical hacker is a name that is given to penetration testing/ tester. An ethical hacker is employed by the organization with full trust with the employer (ethical hacker) for attempting the penetrating the computer system in order to find and fix all the computer security vulnerabilities. Computer security vulnerabilities also include illegal hacking (gaining authorization to some other computer systems). These activities are criminal activities in almost all countries. Doing a penetrating test in a particular system with the permission of the owner is done and also possible except in Germany. This certification validates the knowledge and skills that are required on how to look for the vulnerabilities as well as weaknesses in a particular computer.
