Hindu temples, Catholic churches, public schools, and community centers, this book demonstrates how processes of sociolinguistic differentiation are mediated by ethnonational, religious, class, racial, and caste hierarchies. Indian Tamils showcase their use of the "cosmopolitan" sounds and scripts of colloquial varieties of Tamil to enhance their

geographic and social mobilities, whereas Sri Lankan Tamils, dispossessed of their homes by civil war, instead emphasize the "primordialist" sounds and scripts of a pure "literary" Tamil to rebuild their homeland and launch a "global" critique of racism and environmental destruction from the diaspora. This book uses the ethnographic and archival study of Tamil mobility and immobility to

expose the mutual constitution of elite and non-elite global modernities, defined as language ideological projects in which migrants objectify dimensions of time and space through scalar metaphors.  Puja, 19, chaotic, unorganized, energetic, a baffling puzzle to her family. Her philosophy? Life is just too complicated; only a small group of super achievers have it figured out. Her strict mother sends her to a remote rural location in Kerala and Puja has to

spend her summer vacation doing voluntary work. Arush, 20, studious, careful, shy. Born and raised in Britain, he is elated when he gets chosen for an International program to spend twelve weeks in India. Here's an opportunity to explore his roots. When Puja and Arush meet, all they can think of is how unbelievably different the other one is. But with choppy internet and no other

distractions, they start getting to know each other and slowly fall in love. But falling in love and staying in love are not the same thing. When disaster strikes, they are embroiled in a dangerous situation that spirals out of control. Puja is forced to confront the harsh realities of life while Arush realises that India is not always the picture-perfect postcard he presumed it was.

<p>Desperately fighting to expose the truth and save themselves, what happens to their love? Is it strong enough to survive forces that threaten to destroy it? Is it deep enough to drown their own doubts? Sometimes you have to travel far to find your true self. For a tale to be included, Ulrich Marzolph considered two criteria: that the tale originates from or at least was transmitted by a Middle Eastern source, and that it was recorded from a Western narrator's oral performance in the course</p>
---	--	---

of the nineteenth or twentieth century. The rationale behind these restrictive definitions is predicated on Marzolph's main concern with the long-lasting effect that some of the "Oriental" narratives exercised in Western popular tradition—those tales that have withstood the test of time. Marzolph focuses on the originally "Oriental" tales that became part and parcel of modern

Western oral tradition. Since antiquity, the "Orient" constitutes the quintessential Other vis-à-vis the European cultures. While delineation against this Other served to define and reassure the Self, the "Orient" also constituted a constant source of fascination, attraction, and inspiration. Through oral retellings, numerous tales from Muslim tradition became an

integral part of European oral and written tradition in the form of learned treatises, medieval sermons, late medieval fabliaux, early modern chapbooks, contemporary magazines, and more. In present times, when national narcissisms often acquire the status of strongholds delineating the Us against the Other, it is imperative to distinguish, document, visualize, and discuss the extent to

which the West is not only indebted to the Muslim world but also shares common features with Muslim narrative tradition. 101 Middle Eastern Tales and Their Impact on Western Oral Tradition is an important contribution to this debate and a vital work for scholars, students, and readers of folklore and fairy tales.

William Alexander Clouston (1843-96) was a Scottish folklorist from Orkney. In early life he was engaged in commercial

pursuits in Glasgow and London but relinquished these to engage in journalism and literature. He edited several Scottish provincial newspapers and wrote for the Glasgow Herald, the Evening Times and other journals. He had a particular interest in oriental fiction and folklore and contributed to Sir Richard Burton's "Supplemental Arabian Nights" providing variants of

some of the tales in Vols. I-III. Among other works, he published 'Arabian Poetry for English Readers', 'Flowers from a Persian Garden and Other Papers' and 'The Book of Noodles' . This collection of Eastern stories, which includes copious notes and an appendix, was privately printed in 1889 in an edition of 300 copies.

Notorious for the delight he took in tweaking the sexual taboos of the Victorian age- as well as the delight he took in the resulting shock of his bashful peers- British adventurer, linguist, and author CAPTAIN SIR RICHARD FRANCIS BURTON (1821-1890) is perhaps best remembered for his unexpurgated translation of the Eastern classic The One Thousand and One Nights, more

famously known today as The Arabian Nights. Originating in Persian, Indian, and Arabic sources as far back as the ninth century AD, this collection of bawdy tales-which Burton was the first to bring to English readers in uncensored form-has exerted incalculable influence on modern literature. It represents one of the earliest examples of a framing story,

as young Shahrazad, under threat of execution by the King, postpones her death by regaling him with these wildly entertaining stories over the course of 1,001 nights. The stories themselves feature early instances of sexual humor, satire and parody, murder mystery, horror, and even science fiction. Burton's annotated 16-volume collection, as infamous as it is important,

was first published between 1885 and 1888, and remains an entertainingly naughty read. Volume XII-the second volume of Burton's Supplemental Nights-includes: [ "Al-Malik Al-Zahir Rukn Al-Din Bibars Al-Bundukdari and the Sixteen Captains of Police" [ "Women's Wiles" [ "Nur Al-Din Ali of Damascus and the Damsel Sitt Al-Milah" [ "The Concubine and the Caliph" [ "The

Ratna?valiya is in turn an expanded version of the fifth century Pali work, the Dhammapada ttakata. The stories are lively and entertaining, of interest to the general reader and the specialist. A skilled teacher, and raconteur, the author probes the depths of Buddhist philosophical doctrine and makes it meaningful for his lay audiences. Generations of Sri Lankans have read, heard and enjoyed the

stories. They deal with the vicissitudes of the human condition and so, like all good literature have a timeless relevance and appeal.

Diamond Pocket Books (P) Ltd.  
The History of the Book in South Asia covers not only the various modern states that make up South Asia today but also a multitude of languages and

scripts. For centuries it was manuscripts that dominated book production and circulation, and printing technology only began to make an impact in the late eighteenth century. Print flourished in the colonial period and in particular lithographic printing proved particularly popular in South Asia both because it was economical and because it

enabled multi-script printing. There are now vibrant publishing cultures in the nation states of South Asia, and the essays in this volume cover the whole range from palm-leaf manuscripts to contemporary print culture.  This work is an original attempt to study the influence of print technology on the Muslims of Tamil Nadu and their literature. It is based on the literary works published by the Tamil Muslims from 1835, when restrictions on printing were removed, to 1920 when they participated in the Khilafat

movement. By extension, the study of this literature becomes a study of the origin, society, and identity of the Tamil Muslims.  
**A Plain and Literal Translation of the Arabian Nights' Entertainments, Now Entitled The Book of the Thousand Nights and a Night** SUNY Press  
 Almost three centuries have passed since the oldest manuscript of "The Thousand and

One Nights" arrived in Europe. Since then, the "Nights" have occupied the minds of scholars world-wide, in particular the questions of origin, composition, language and literary form. In this book, Muhsin Mahdi, whose critical edition of the text brought so much praise, explores the complex literary history of the "Nights," bringing to fruition the search for the archetype that constituted

the core of the surviving editions, and treating the fascinating story of the growth of the collection of stories that we now know as "The Thousand and One Nights," Short Stories Muslim Identity, Print Culture, and the Dravidian Factor in Tamil Nadu Half mythical, heroic and sagacious, the emperor Vikramaditya is widely regarded as India's greatest monarch. This collection of stories tells of

the ruler's fabled encounter with a vetala, a genie who inhabits the body of a corpse. The emperor begs the spirit for his help against a mighty necromancer and is told in return twenty-four tales, each of which presents a situation he might face as a king and culminates in a riddle that he must solve. With each answer, Vikramaditya displays his deep wisdom, proving himself to be

the ideal monarch and winning, in the twenty-fifth tale, the guidance he needs from the vetala to destroy his powerful enemy. Written down in medieval times but inspired by an oral tradition stretching back centuries, these wise and witty tales rank amongst the great masterpieces of Sanskrit literature. Scheherazade's Children Oxford University Press Scheherazade'

s Children gathers together leading scholars to explore the reverberations of the tales of the Arabian Nights across a startlingly wide and transnational range of cultural endeavors. The contributors, drawn from a wide array of disciplines, extend their inquiries into the book's metamorphoses on stage and screen as well as in literature—from India to Japan, from Sanskrit

mythology to British pantomime, from Baroque opera to puppet shows. Their highly original research illuminates little-known manifestations of the Nights, and provides unexpected contexts for understanding the book's complex history. Polemical issues are thereby given unprecedented and enlightening interpretations. Organized under the rubrics of Translating, Engaging, and

Staging, these essays view the Nights corpus as a uniquely accretive cultural bundle that absorbs the works upon which it has exerted influence. In this view, the Arabian Nights is a dynamic, living and breathing cross-cultural phenomenon that has left its mark on fields as disparate as the European novel and early Indian cinema. While scholarly, the writers' approach is also lively and

entertaining, and the book is richly illustrated with unusual materials to	deliver a sparkling and highly original exploration of the Arabian Nights'	radiating influence on world literature, performance, and culture.
