This volume examines the evolution of US foreign policy since Donald Trump's accession to the presidency and the strategic challenges confronting the United States in a changing geopolitical environment. Trump has delivered on his promises to break with

past policies and this has, for the most part, revealed a policy of retrenchment that has jeopardized US alliances. The book focuses on the current state and future of transatlantic relations, on Washington's policy in the Middle East and Africa, on the administration's use of the economic weapon in international relations, but also on the American response to the return of great power competition in the face of an assertive China and resurgent Russia. The contributions gather the inputs of a

transatlantic community of scholars combining academics, think-tank fellows, former policy-makers and administration officials from both sides of the Atlantic.

Making Education Work
for the Poor identifies
wealth inequality as the
gravest threat to the
endangered American
Dream. Though studies
have clearly illustrated
that education is the
primary path to upward
mobility, today,
educational outcomes are
more directly determined
by wealth than innate
ability and exerted effort.
This accounting directly
contradicts Americans'
understanding of the
promise the American
Dream is supposed to
offer: a level playing field

and a path towards a
more profitable future. In
this book, the authors
share their own stories of
their journeys through the
unequal U.S. education
system. One started from
relative privilege and had
her way to prosperity
paved and her individual
efforts augmented by
institutional and structural
support. The other grew
up in poverty and had to
fight against currents to
complete higher
education, only to find his
ability to profit from that
degree compromised by
student debt. To directly

counter wealth inequality and make education the 'great equalizer' that Americans believe it to be, this book calls for a revolution in financial aid policy, from debt dependence to asset empowerment. The book examines the evidence base supporting Children's Savings Accounts, including CSAs' demonstrated potential to improve children's outcomes all along the 'opportunity pipeline': early education, school achievement, college access and completion,

and post-college financial health. It then outlines a policy that builds on CSAs to incorporate a sizable, progressive wealth transfer. This new policy, Opportunity Investment Accounts, is framed as the cornerstone of the wealth-building agenda the nation needs in order to salvage the American Dream. Written by leading CSA researchers, the book includes overviews of the major children's savings legislation proposed in Congress and the key features of prominent CSA programs in operation

around the country today, as well as new qualitative and quantitative CSA research. The book ultimately presents a critical development of the theories that, together, explain how universal, progressive, asset-based education financing could make education work equitably for all American children.

Many books have been written on conservative politics. Many more have been written calling Christians to holiness and spiritual revival. Few, however, have managed

to combine a clear explanation of the conservative political perspective with its corresponding personal and spiritual virtue. In *INDIVISIBLE*, James Robison, the founder and president of LIFE Outreach International, partners with Jay Richards, Ph.D., a writer who has appeared in both the *New York Times* and *The Washington Post*. Together, they tackle tough, controversial political issues facing conservative Christians today, including abortion,

stem cell research, education, economics, health care, the environment, judicial activism, marriage, and others. Written to appeal to a broad spectrum of believers, *INDIVISIBLE* not only argues political questions from a Scriptural standpoint, it also provides simple arguments that Christians can use to support their beliefs in public settings. Most significantly, Robison and Richards recognize that the point of origin for spiritual and moral transformation is the

individual. "We are convinced by historical precedent that long term cultural change requires not merely sound thinking and public good works but rather, God's spiritual and moral transformation of us as individuals, which will then transform our churches, our communities, our culture, and ultimately our politics." James Robison is the founder and president of LIFE Outreach International, a worldwide Christian relief organization. He is also the host of LIFE Today, a

daily syndicated television program that reaches 300 million homes in the U.S., Canada, Europe, and Australia. He is the author of many books, including *The Absolutes*, *True Prosperity*, and *Living in Love*, and has spoken to millions of people through evangelistic crusades since entering public ministry in 1962. Jay W. Richards, Ph.D., is a Senior Fellow at the Discovery Institute and the author of many books, including the award-winning *Money, Greed, and God* and *The*

Privileged Planet. He is the executive director of the documentaries *The Call of the Entrepreneur* and *The Birth of Freedom*. He has been featured in the *New York Times* and the *Washington Post* and has appeared on *Larry King Live*. He has also lectured on economic myths to members of the U.S. Congress. If you're tired of other people's energy throwing off your goals & dreams then keep reading... Have

you ever wanted to express yourself the way you want, without letting outside energy negatively affect you? All too often we let external energy invade our boundaries & lower our vibration. This tragically leads to us living nowhere near our best lives. But what if you could discover how to easily take ownership of your power & energy & become as unshakable as a mountain? What would your life be like if you could protect your own energy with healthy & firm boundaries? Can you

picture how it would feel getting more respect at work & in your relationships? There is simply no reason for you not to live an abundant, happy, & fulfilled life, free of harmful energetic influences surrounding & imposing your space. The Earth is full of Source energy. Its source is always receiving and sending energy to all creation. Connecting to the Earth is not a luxury but a deep need. A study carried out by the University of Arizona researched the harmful

effects of a living entity being separated from its direct source. The experiment compared two sunflowers. One of them would be grounded to the Earth and the other would not. The sunflower which was not grounded had a huge decline in health. Researchers noted that the ungrounded sunflower appeared "stressed" while the grounded sunflower appeared to be vibrant. You're living with high stress or depression simply because you've lost touch with the Earth. Inside you'll discover: The

 Gerald K. Stone has collected books about Canadian Jewry since the

early 1980s. This volume is a descriptive catalog of his Judaica collection, comprising nearly 6,000 paper or electronic documentary resources in English, French, Yiddish, and Hebrew. Logically organized, indexed, and selectively annotated, the catalog is broad in scope, covering Jewish Canadian history, biography, religion, literature, the Holocaust, antisemitism, Israel and the Middle East, and more. An introduction by Richard Menkis discusses the significance of the Catalog and

collecting for the study of the Jewish experience in Canada. An informative bibliographical resource, this book will be of interest to scholars and students of Canadian and North American Jewish studies.

The suburban landscape is inseparable from American culture. Suburbia does not only relate to the geographical concept, but also describes a cultural space incorporating people's hopes for a safe and prosperous life. Suburbia marks a dynamic ideological space

constantly influenced and recreated by both the events of everyday life and artistic discourse. Fictional texts do not merely represent suburbia, but also have a decisive role in the shaping of suburban spaces. The widely held idealized image of suburbia evolved in the 1950s. Today, reality deviates from the concept of suburbs projected back then, due to e.g. high divorce rates and an increase of crime. Nevertheless, the nostalgic view of the

suburbs as the "Promised Land" has survived. Postwar critics object to this perception, considering the suburbs rather as depressing landscapes of mass-consumption, conformity and alienation. This book exemplifies the dualistic representation of suburbs in contemporary American cinema by analyzing Pleasantville, The Truman Show and American Beauty. It examines how utopian concepts of suburbia are created culturally and psychologically in the

films, and how the underlying anxieties of the suburban experience, visualized by the dystopian narratives, challenge this ideal. *Leave Love with Me* InterVarsity Press Environmental disasters and severe weather due to climate change, both triggered by human actions, have had an increasingly direct impact on our homes. But the way in which America builds its homes is part of the problem. This deeply researched history of sustainable design

standards in building codes explores how public policy, standard-setting trade associations, and financial incentives influence the ways in which the construction of our homes impacts the environment. *The Greening of America's Building Codes* investigates the regulations and economic incentives meant to control the environmental impact of contemporary construction practices as it analyzes the history of residential building codes. The book exposes how

the socioeconomic and political forces that influenced early building code development continue to define the character of current building codes and, by extension, determine how we regulate environmental impact and define sustainability today. More relevant than ever, *The Greening of America's Building Codes* is a valuable tool for architects, architecture students, builders, real estate developers, and homeowners who want to understand how public

policy and their own day-to-day decisions impact the environment. *REX East Project U* of Nebraska Press Widespread media narratives portray an epidemic of neighborhood violence in urban areas—often ignoring the structural explanations advanced by community organizers fighting violence and activists such as those in the Movement for Black Lives. In this book, Dexter R. Voisin provides a compelling and social-justice-oriented analysis

of current trends in neighborhood violence in light of the historical and structural factors that have reproduced entrenched patterns of racial and economic inequality. *America the Beautiful and Violent* is built around the powerful voices and insights of black youth in Chicago and their parents and communities. Voisin interweaves their narratives with data, research findings, and historical accounts that provide context for their experiences. He highlights

the broad historical, political, economic, and racial factors that shape the construction, concentration, and narratives of violence in black neighborhoods. Voisin explores these forces and the violence they produce; the behavioral health consequences of repeated exposures to neighborhood violence; and the ways youth, families, and communities cope with such traumas. *America the Beautiful and Violent* offers a set of practice and policy

recommendations to address the patchwork inequality that leads to concentrated violence and to support children and adolescents struggling with the precarious conditions and threat of violence in their daily lives.

Never Stop Dreaming UPA

In provocative detail with more than one hundred illustrations, critically acclaimed author Virginia Postrel separates glamour from glitz, revealing what qualities make a person, an object, a setting, or an experience glamorous.

What is it that creates that pleasurable pang of desire—the feeling of “if only”? If only I could wear those clothes, belong to that group, drive that car, live in that house, be (or be with) that person? Postrel identifies the three essential elements in all forms of glamour and explains how they work to create a distinctive sensation of projection and yearning. *The Power of Glamour* is the very first book to explain what glamour really is—not just style or a personal quality but a phenomenon that

reveals our inner lives and shapes our decisions, large and small. By embodying the promise of a different and better self in different and better circumstances, glamour stokes ambition and nurtures hope, even as it fosters sometimes-dangerous illusions. From vacation brochures to military recruiting ads, from the Chrysler Building to the iPad, from political utopias to action heroines, Postrel argues that glamour is a seductive cultural force. Its magic stretches beyond the

stereotypical spheres of fashion or film, influencing our decisions about what to buy, where to live, which careers to pursue, where to invest, and how to vote. The result is myth shattering: a revelatory theory that explains how glamour became a powerful form of nonverbal persuasion, one that taps into our most secret dreams and deepest yearnings to influence our everyday choices.

"... a good book to add to an introduction to sociology course if you want to give your students a good sense of how sociology analyzes culture and media....There is a lot in the book and Sternheimer does a good job of weaving together hard sociological data on stratification, inequalities, wage and labor trends to the narrative promoted by the celebrity culture along with changes in the structure and power relations in the industry itself. The book is an easy read with a lot of

illustrations from celebrity magazines and so is very appropriate for undergraduate audiences."—Global Sociology Using examples from the first celebrity fan magazines of 1911 to the present, *Celebrity Culture and the American Dream* considers how major economic and historical factors shaped the nature of celebrity culture as we know it today. Equally important, the book explains how and why the story of Hollywood celebrities matters, sociologically speaking, to

an understanding of American society, to the changing nature of the American Dream, and to the relation between class and culture. This book: Explores the relationship between celebrity culture, consumption, class, and social mobility Discusses social changes pertaining to class, gender, marriage and divorce, and race Includes numerous pictures from fan magazine articles and ads Examines the connections between celebrity culture and economic, political, and social changes

Considers the importance of the structure of the entertainment industry to understand how celebrity culture is manufactured
The Locust Effect Böhlau Verlag Köln Weimar
Myron Magnet's *The Dream and the Nightmare* argues that the radical transformation of American culture that took place in the 1960s brought today's underclass—overwhelmingly urban, dismayingly minority—into existence. Lifestyle experimentation among the white middle class produced often

catastrophic changes in attitudes toward marriage and parenting, the work ethic and dependency in those at the bottom of the social ladder, and closed down their exits to the middle class. Texas Governor George W. Bush's presidential campaign has highlighted the continuing importance of *The Dream and the Nightmare*. Bush read the book before his first campaign for governor in 1994, and, when he finally met Magnet in 1998, he acknowledged his debt to this work. Karl Rove,

Bush's principal political adviser, cites it as a road map to the governor's philosophy of "compassionate conservatism."

Football is a mirror that reflects political and social processes. It was not, and still is not, separated from the political conditions that Palestine went through and still going through tens of decades later. Football was not isolated from the British-imposed mandate on Palestine, Zionist settlements, immigration

and dreams in building the national home, Nakba (the catastrophe of 1948), and Diaspora that still occur to this day. In addition, it has been subjected to Israeli restrictions throughout the longest occupation in modern history. Football helped in shaping the Palestinian national identity. Palestinians expressed themselves in sports. In fact, football was not, and still is not, a tool of achieving big results; rather, it represented a way for pride and national

expression. Through the last one hundred years, current Palestinian sport was based on national-ideological, cultural, organizational and health principles. It has a historical characteristic through this period because it was attached to the political conditions in which the Palestinians went through. In some cases, Palestinian people could achieve better results for change through football than by political means. Many believe that football could be a significant tool for

building an independent state.

a freelancer or small business owner. Through interviews, case studies, and features, the industry pros and subject matter experts provide the wisdom, objectivity, and context that creatives need. It's all about being creative and getting paid. *Tiere im Film* Al Manhal Desire for beauty is at the heart of human existence. Some find this meaning out of their religious or spiritual perspective. Some find it at the edge of their traditions. And others find it outside any recognizable tradition.

This book speaks especially to the second and third groups of people. Desire releases us to explore difference, and to honor alternatives. Desire shapes our lives in unique ways. It centers our energies for personal and relational change, where difference can be debated, and variety permitted. We might transcend circumstances that limit us. Desire is more than "meaningfulness," it is captivation of mind and spirit to life's possibility. In my discovery, desire is

an abandonment to beauty.

My Beautiful Colors

Chronicle Books

My Beautiful Colors By: Nyibol Bior When she first walked into an American high school as a substitute teacher, Nyibol Bior was bullied for being black, and My Beautiful Colors was originally a chapter in her autobiography as a section meant to educate the world that she's black for a reason. Sudan means "land of the blacks" in Arabic, and this region has one of the hottest climates on the planet, so it's no wonder

her creator made her black, to ensure her skin color protected her from the sun. She could not just write about how black is beautiful because it is not the only color she's attracted to, and she could not just stick to the trauma that war brought upon her because her

presence as an alien in the United States left many curious. Using various colors metaphorically, Nyibol describes the events of the Sudan's Second Civil War, the life that preceded and followed it, along with her vision as a survivor of it. Colors have multiple and opposite

meanings, and it's up to her what side of the description she wants to be on, the way it's up to her to treat herself and others with respect and dignity. If the red form of hate is introduced, then she will find a way to make red the color of love before it.
