FULLER JESSIE

United States Congressional serial set
Oxford University Press, USA

This edition of our successful series to support the Cambridge IGCSE Physics syllabus (0625) is fully updated for the revised syllabus for first examination from 2016. Written by an experienced teacher who is passionate about practical skills, the Cambridge IGCSE® Physics Practical Workbook makes it easier to incorporate practical work into lessons. This Workbook provides interesting and varied practical

investigations for students to carry out safely, with guided exercises designed to develop the essential skills of handling data, planning investigations, analysis and evaluation. Exam-style questions for each topic offer novel scenarios for students to apply their knowledge and understanding, and to help them to prepare for their IGCSE Physics paper 5 or paper 6 examinations.

BLS Report

Packed with spectacular superlatives, shocking stats, fantastic facts and fun figures, *Science and Stuff* celebrates the simple joy in finding things out. What can cats teach us about the laws of

physics? Why was cabbage banned on the International Space Station? (Can you fart in space?) And would a penny dropped from the Empire State Building really kill someone? (Short answer: No!) But it's not all facts and stats. The feature chapter just for Makers, introduced by our very own mad professor Burnaby Q. Orbax, challenges you to attempt record-breaking science experiments at home, from the fastest Mentos & Soda rocket car to the most slime thrown and caught in a minute! Join us as we rise from the deepest depths of the ocean, where weird glowing fish hunt in the darkness, to the mountaintop observatories where scientists unravel the secrets of the universe.

Statistical Supplement to the Survey of Current Business

This rather unusual history book tells the passionate and adventurous life story of the man who was probably the most significant Pakeha-Maori of all. Frederick Maning ended up in the wild Hokianga region in the 1830s. He lived with local Nga Puhi as their pet Pakeha-Maori, became as a rangatira, married a high-

ranking Nga Puhī woman and produced four children. Maning was involved in the aftermath of the signing of the Treaty of Waitangi in the Hokianga area, and fought with tribal forces during the war in the North in the 1840s. Later in life Maning became an esteemed judge of the Native Land Court. In the 1860s he wrote *Old New Zealand*, which has become a classic of colonial literature. It contains unequalled accounts of Maori and New Zealand life during these times. Maning was also a prolific letter writer and John Nicholson draws on these letters, as well as interviews with

relatives, to create a full account of this celebrated and sometimes controversial figure.
