### Multiple Perspectives on Play in Early Childhood Education

Pearson College Division

This shorter, essentials version of Berk's best-selling *Development Through the Lifespan*, 5/e, covers the same topics and contains the same number of chapters, but presents only the essential information with an exceptionally strong emphasis on applications. Exploring Lifespan Development includes all the features Berk's texts are known for: Engaging writing style, exceptional cross-cultural focus, rich examples, the most up-to-date research, and practical applications that help students relate the subject to their personal and professional lives. Laura Berk, renowned professor and researcher, has refashioned her text to provide the core information in the field with an exceptionally strong emphasis on applications. Visually stunning, pedagogically balanced, and fully integrated, the Exploring edition has all the great features of *Development Through the Lifespan*, 5e, in an abbreviated form. The latest theories and findings in the field are made accessible to students in a manageable and relevant way.

Berk's signature storytelling style invites students to actively learn beside the text's "characters," who share their influential experiences and developmental milestones. Students are provided with an exceptionally clear and coherent understanding of the sequence and underlying processes of human development, emphasizing the interrelatedness of all domains—physical, cognitive, emotional, social—throughout the text narrative and in special features. Berk also helps students connect their learning to their personal and professional areas of interest. Her voice comes through when speaking directly about issues students will face in their future pursuits as parents, educators, health care providers, social workers, and researchers. As members of a global and diverse human community, students are called to intelligently approach the responsibility of understanding and responding to the needs and concerns of both young and old. Berk presents the most important classic and emerging theories in an especially clear, coherent, engaging writing style, with a multitude of research-based, real-world, and cross-cultural examples. Strengthening the connections among developmental domains and highlighting the application of theories and research to the real world, this text presents the most important scholarship in the changing field of human

development.

Exploring Lifespan Development Oxford Library of Psychology  
For courses in Child Development that take a chronological approach Leading the Child Development market for over 25 years Revel(TM) Infants, Children, and Adolescents is relied on in classrooms worldwide for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, first-rate coverage of developmental neuroscience, rich examples, and long-standing commitment to presenting the most up-to-date scholarship. Renowned professor, researcher, and author Laura Berk takes an integrated approach to presenting development in the physical, cognitive, emotional, and social domains, emphasizing the complex interchanges between heredity and environment, and offering research-based, practical applications that students can relate to their personal and professional lives. The 9th Edition's extensive revision strengthens the connections among developmental domains and brings forth the most recent scholarship, representing the changing field of child development. Revel is Pearson's newest, fully digital method of delivering course content. A less expensive alternative to the printed textbook, Revel is an immersive learning environment that enables students to read, practice, and study in one continuous experience. NOTE: Revel is a fully digital delivery of Pearson content. This ISBN is for the standalone Revel access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use Revel. Awakening Children's Minds Child Development

A best-selling, topically organized child development text, Berk's Child Development is relied on in classrooms worldwide for its clear, engaging writing style, exceptional cross-cultural and multi-cultural focus, rich examples, and long-standing commitment to presenting the most up-to-date scholarship while also offering students research-based, practical applications that they can relate to their personal and professional lives. Berk takes an integrated approach to presenting development in the physical, cognitive, emotional, and social domains; emphasizes the complex interchanges between heredity and environment; and provides exceptional attention to culture. Laura Berk, renowned professor and researcher, presents the latest theories and findings in the field to students in a manageable and relevant way. Berk's signature storytelling style invites students to actively learn beside the text's "characters," who experience real issues in development, including physical, cognitive, and peer challenges, as well as parenting and educational concerns. Berk also helps students connect their learning to their personal and professional areas of interest. Her voice comes through when speaking directly about issues students will face in their future pursuits as parents, educators, health care providers, social workers, and researchers. As members of a global and diverse human community, students are called on to intelligently approach the responsibility of understanding and responding to the needs and concerns of children. While carefully considering the complexities of child development, Berk presents classic and emerging theories in an especially clear, engaging writing style, with a multitude of research-based, real-world, and cross-cultural examples. Strengthening the connections among developmental domains and among theory, research, and applications, this edition's extensive revision brings forth the most recent scholarship, representing the changing field of child development. Note: MyDevelopmentLab does not come automatically packaged with this text. To purchase MyDevelopmentLab, please visit: [www.mydevelopmentlab.com](http://www.mydevelopmentlab.com). Mydevelopmentlab Student Access Code Card Pearson

*Child Development* Pearson

Child Development Pearson College Division

Pearson

Berk's signature storytelling style invites students to actively learn beside the text's "characters" who share their influential experiences and developmental milestones. Students are provided with an exceptionally clear and coherent understanding of child development, emphasizing the interrelatedness of all domains--physical, cognitive, emotional, and social--throughout the text narrative and in special features. Focusing on education and social policy as critical pieces of the dynamic system in which the child develops, Berk pays meticulous attention to the most recent scholarship in the field. Berk helps students connect their learning to their personal and professional areas of interest and their future pursuits as parents, educators, health care providers, counselors, social workers, and researchers. This is the standalone book if you want the book/access card order the ISBN

Laura Berk, renowned professor and researcher in the field of child development, has updated her successful chronological text with heightened attention to the relationship between theory, research, and applications. In her signature storytelling style, Berk presents a "cast of characters" based on real children and families for each unit, and actually uses these characters, by telling their "stories," to illustrate the sequence and processes of child development.
