TRISTIN JAMAL

Daughters of the Winter Queen Little, Brown
This is a story of wars, revolutions, exiles and restorations; a parade of kings, queens, regents and pretenders. Its central theme is the fight for the throne of Spain between the Bourbon and Carlist pretenders, a fight which started in 1833. Both branches of the family abound in colourful characters: the shrewd Maria Cristina, the masculine Infanta Carlota, the sensuous Isabel II, the effete King Francisco, the suave Duke de Montpensier, the showy Carlos VII, the licentious Alfonso XII. The drama is acted out in many countries in the court living in formal splendour in the Palacio Real in Madrid, Don Juan dying incognito in a house in Brighton, Isabel living out her voluptuous days in Paris, Carlos VII scheming in his palazzo on the Grand Canal, the future Alfonso XII at Sandhurst, the Infanta Eulalia in Chicago, the son of Alfonso XIII dying in a car

accident in the U.S.A. When this book was first published in 1966, the spirit of Carlism was still very much alive; the Carlists had thrown their weight behind Franco in the Spanish Civil War, and the recent marriage of the Carlist pretender to Princess Irene of Holland had spotlighted the old feud.

The Crown Michael O'Mara Books

The highly-anticipated biography of Henry VIII. The significance of his reign is, at times, overshadowed by his six marriages. This book, however, will look beyond the marriages to explore the man, his obsessions, his life and his legacy.

Elizabeth the Queen

Chatto & Windus
From the internationally acclaimed and bestselling historians William Dalrymple and Anita Anand, the first comprehensive and authoritative history of the Koh-i-Noor diamond, arguably the most celebrated jewel in the world. On March 29, 1849, the ten-year-old leader of the Sikh kingdom of the Punjab was ushered into the magnificent Mirrored Hall at the center of the British fort in Lahore,

India. There, in a formal Act of Submission, the frightened but dignified child handed over to the British East India Company swathes of the richest land in India and the single most valuable object in the subcontinent: the celebrated Koh-i-Noor diamond, otherwise known as the Mountain of Light. To celebrate the acquisition, the British East India Company commissioned a history of the diamond woven together from the gossip of the Delhi Bazaars. From that moment forward, the Koh-i-Noor became the most famous and mythological diamond in history, with thousands of people coming to see it at the 1851 Great Exhibition and still more thousands repeating the largely fictitious account of its passage through history. Using original eyewitness accounts and chronicles never before translated into English, Dalrymple and Anand trace the true history of the diamond and disperse the myths and fantastic tales that have long surrounded this awe-inspiring jewel. The resulting history of south and central Asia tells a true tale of greed,

conquest, murder, torture, colonialism, and appropriation that shaped a continent and the Koh-i-Noor itself.

“Absolutely unforgettable.” —Kendare Blake, #1 New York Times bestselling author of the Three Dark Crowns series
“A beautifully told story about justice, sisterhood, and warrior women.”

—Shea Ernshaw, New York Times bestselling author of *The Wicked Deep* “Epic in the truest sense.” —Quill and Quire
An Ember in the Ashes meets *Three Dark Crowns* in this lush debut fantasy novel about a girl who disguises herself as a boy to join a secret group of warriors that ride phoenixes into battle. I had a sister, once... In a world ruled by fierce warrior queens, a grand empire was built upon the backs of Phoenix Riders—legendary heroes who soared through the sky on wings of fire—until a war between two sisters ripped it all apart. I promised her the throne would not come between us. Sixteen years later, Veronyka is a war orphan who dreams of becoming a Phoenix Rider from the stories of old. After a shocking betrayal from

her controlling sister, Veronyka strikes out alone to find the Riders—even if that means disguising herself as a boy to join their ranks. But it is a fact of life that one must kill or be killed. Rule or be ruled. Just as Veronyka finally feels like she belongs, her sister turns up and reveals a tangled web of lies between them that will change everything. And meanwhile, the new empire has learned of the Riders’ return and intends to destroy them once and for all. Sometimes the title of queen is given.

Sometimes it must be taken. *Crown of Feathers* is an epic fantasy about love’s incredible power to save—or to destroy. Interspersed throughout is the story of Avalkyra Ashfire, the last Rider queen, who would rather see her empire burn than fall into her sister’s hands.

Royal Vendetta Random House

There is no more haunting, compelling period in Britain's history than the later middle ages. The extraordinary kings - Edward III and Henry V the great warriors, Richard II and Henry VI, tragic inadequates killed by their failure to use their power, and Richard III, the demon

king. The extraordinary events - the Black Death that destroyed a third of the population, the Peasants' Revolt, the Wars of the Roses, the Battle of Agincourt. The extraordinary artistic achievements - the great churches, castles and tombs that still dominate the landscape, the birth of the English language in *The Canterbury Tales*. For the first time in a generation, a historian has had the vision and confidence to write a spell-binding account of the era immortalised by Shakespeare's history plays. *THE HOLLOW CROWN* brilliantly brings to life for the reader a world we have long lost - a strange, Catholic, rural country of monks, peasants, knights and merchants, almost perpetually at war - but continues to define so much of England's national myth.

For Crown and Country
Harper Collins

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly

redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the

world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows. **Henry** Barnes & Noble Imports
A tribute to the life and enduring reign of Elizabeth II draws on numerous interviews and previously undisclosed documents to juxtapose the queen's public and private lives, providing coverage of such topics as her teen romance with Philip, her contributions during World War II and the scandals that have challenged her family. (This book was previously listed in Forecast.) Elizabeth Harper Collins
The official book to the Golden Globe and BAFTA award-winning Netflix drama, *The Crown*, with extensive research,

additional material and beautifully reproduced photographs. 'The things which I have here before promised, I will perform and keep. So help me God.' Elizabeth Mountbatten never expected her father to die so suddenly, so young, leaving her with a throne to fill and a global institution to govern. Crowned at 25, she was already a wife and mother. Follow the journey of a woman learning to become a queen. As Britain lifted itself out of the shadow of war, the new monarch faced her own challenges. Her mother doubted her marriage; her uncle-in-exile derided her abilities; her husband resented the sacrifice of his career and family name; while her rebellious sister embarked on a love affair that threatened the centuries-old links between the Church and the Crown. This is the story of how Elizabeth II drew on every ounce of resolve to ensure that the Crown always came out on top. Netflix's original series *The Crown* dramatised Peter Morgan's powerful portrayal of Britain's longest-reigning monarch. Written by royal biographer Robert Lacey, *The Crown: The Inside*

History adds expert and in-depth detail to the events of the series, painting an intimate portrait of life inside Buckingham Palace and 10 Downing Street. Here is Elizabeth II as we've never seen her before.

Six Wives William Collins Much scholarship on nineteenth-century English workers has been devoted to the radical reform politics that powerfully unsettled the social order in the century's first decades. Comparatively neglected have been the impetuous patriotism, royalism, and xenophobic anti-Catholicism that countless men and women demonstrated in the early Victorian period. This much-needed study of the era's "conservatism from below" explores the role of religion in everyday culture and the Tories' successful mobilization across class boundaries. Long before they were able to vote, large swathes of the lower classes embraced Britain's monarchical, religious, and legal institutions in the defense of traditional English culture.

Crown and Nobility, 1272-1461 Simon and Schuster Monarchy is more than

the biographies of the kings and queens of England. It is an in-depth examination of what the English monarchy has meant, in terms of the expression of the individual, the Mother of Parliaments, Magna Charta, the laws of England and the land of England. This is the history of ideas and ideals, as well as colourful characters, brought to life by David Starkey's unique gifts as a communicator. David Starkey's scholarship combines with his engaging and popular style to produce another winner. The importance of the rich heritage of the Anglo-Saxon kings is underlined, and among the kings most heavily featured are: Alfred the Great, Canute, Edward the Confessor, William the Conqueror, Henry II, Richard Lionheart, Henry III, . The last king in this volume is Henry VI

The Crown of History Bonnier Publishing Ltd. NEW YORK TIMES BESTSELLER • A leading political scientist examines the dramatic rise in violent extremism around the globe and sounds the alarm on the increasing likelihood of a second civil war in the United States "Required reading for anyone

invested in preserving our 246-year experiment in self-government."—The New York Times Book Review ONE OF THE BEST BOOKS OF 2022 SO FAR: Esquire, Financial Times Political violence rips apart several towns in southwest Texas. A far-right militia plots to kidnap the governor of Michigan and try her for treason. An armed mob of Trump supporters and conspiracy theorists storms the U.S. Capitol. Are these isolated incidents? Or is this the start of something bigger? Barbara F. Walter has spent her career studying civil conflict in places like Iraq, Ukraine, and Sri Lanka, but now she has become increasingly worried about her own country. Perhaps surprisingly, both autocracies and healthy democracies are largely immune from civil war; it's the countries in the middle ground that are most vulnerable. And this is where more and more countries, including the United States, are finding themselves today. Over the last two decades, the number of active civil wars around the world has almost doubled. Walter reveals the warning signs—where wars tend to start, who initiates them,

what triggers them—and why some countries tip over into conflict while others remain stable. Drawing on the latest international research and lessons from over twenty countries, Walter identifies the crucial risk factors, from democratic backsliding to factionalization and the politics of resentment. A civil war today won't look like America in the 1860s, Russia in the 1920s, or Spain in the 1930s. It will begin with sporadic acts of violence and terror, accelerated by social media. It will sneak up on us and leave us wondering how we could have been so blind. In this urgent and insightful book, Walter redefines civil war for a new age, providing the framework we need to confront the danger we now face—and the knowledge to stop it before it's too late.

The Royal Demesne in English History John Wiley & Sons

'A formidable, brave and important book' Robert Macfarlane Who owns England? Behind this simple question lies this country's oldest and best-kept secret. This is the history of how England's elite came to own our land, and an inspiring manifesto for how to open

up our countryside once more. This book has been a long time coming. Since 1086, in fact. For centuries, England's elite have covered up how they got their hands on millions of acres of our land, by constructing walls, burying surveys and more recently, sheltering behind offshore shell companies. But with the dawn of digital mapping and the Freedom of Information Act, it's becoming increasingly difficult for them to hide. Trespassing through tightly-guarded country estates, ecologically ravaged grouse moors and empty Mayfair mansions, writer and activist Guy Shrubsole has used these 21st century tools to uncover a wealth of never-before-seen information about the people who own our land, to create the most comprehensive map of land ownership in England that has ever been made public. From secret military islands to tunnels deep beneath London, Shrubsole unearths truths concealed since the Domesday Book about who is really in charge of this country - at a time when Brexit is meant to be returning sovereignty to the people. Melding history, politics and

polemic, he vividly demonstrates how taking control of land ownership is key to tackling everything from the housing crisis to climate change - and even halting the erosion of our very democracy. It's time to expose the truth about who owns England - and finally take back our green and pleasant land. *The Victoria History of the Counties of England* Routledge

The thrilling family saga of five unforgettable women who remade Europe From the great courts, glittering palaces, and war-ravaged battlefields of the seventeenth century comes the story of four spirited sisters and their glamorous mother, Elizabeth Stuart, granddaughter of the martyred Mary, Queen of Scots. Upon her father's ascension to the illustrious throne of England, Elizabeth Stuart was suddenly thrust from the poverty of unruly Scotland into the fairy-tale existence of a princess of great wealth and splendor. When she was married at sixteen to a German count far below her rank, it was with the understanding that her father would help her husband achieve the

kingship of Bohemia. The terrible betrayal of this commitment would ruin "the Winter Queen," as Elizabeth would forever be known, imperil the lives of those she loved, and launch a war that would last for thirty years. Forced into exile, the Winter Queen and her family found refuge in Holland, where the glorious art and culture of the Dutch Golden Age indelibly shaped her daughters' lives. Her eldest, Princess Elizabeth, became a scholar who earned the respect and friendship of the philosopher René Descartes. Louisa was a gifted painter whose engaging manner and appealing looks provoked heartache and scandal. Beautiful Henrietta Maria would be the only sister to marry into royalty, although at great cost. But it was the youngest, Sophia, a heroine in the tradition of a Jane Austen novel, whose ready wit and good-natured common sense masked immense strength of character, who fulfilled the promise of her great-grandmother Mary and reshaped the British monarchy, a legacy that endures to this day. Brilliantly researched and captivatingly written,

filled with danger, treachery, and adventure but also love, courage, and humor, *Daughters of the Winter Queen* follows the lives of five remarkable women who, by refusing to surrender to adversity, changed the course of history.

The Hero and the Crown

Grove Atlantic
From one of our finest historians comes an outstanding exploration of the British monarchy from the retreat of the Romans up until the modern day. This compendium volume of two earlier books is fully revised and updated.

Crown & Sceptre

Random House
Incorporated
Canada's sacrifices and contributions to the South African and First World Wars led to an increased sense of nationhood and to international recognition, but at great cost. The South African War was a relatively small military expedition, but it marked an important decision to send Canadian forces to support allies overseas. In the First World War, Canadians fought on the ground, in the air and at sea in some of the most costly and well-known battles: Second Ypres, the Somme, Vimy, Passchendaele and the

Hundred Days campaign. More than 620,000 Canadians served. On the home front, women entered the workforce, patriotic organizations supported soldiers overseas and the introduction of conscription severely damaged Canadian unity. By showcasing artifacts, images, posters and art, this souvenir catalogue explores the many ways in which these two overseas wars forever changed Canada.

The Daily Show (The Book) Canadian War Museum

"Propulsive and intricate, Greta Kelly has constructed a world of twisting politics and thrilling magic following a heroine who is both clever and uncompromising, but ultimately, has heart. A stellar read that I thoroughly enjoyed." -- Emily Duncan, New York Times bestselling author of *Wicked Saints*
A princess with a powerful and dangerous secret must find a way to save her country from ruthless invaders in this exciting debut fantasy, the first novel in a thrilling duology packed with heroism, treachery, magic, and war. Askia became heir to the Frozen Crown of Seravesh because of her

devotion to her people. But her realm is facing a threat she cannot defeat by sheer will alone. The mad emperor of the Roven Empire has unleashed a horde of invading soldiers to enslave her lands. For months, her warriors have waged a valiant, stealth battle, yet they cannot stop the enemy's advancement. Running out of time, she sets sail for sun-drenched Vishir, the neighboring land to the south, to seek help from its ruler, Emperor Armaan. A young woman raised in army camps, Askia is ill-equipped to navigate Vishir's labyrinthine political games. Her every move sinks her deeper into court intrigues which bewilder and repel her, leaving her vulnerable not only to enemies gathering at Vishir's gates, but to those behind the palace walls. And in this glittering court, where secrets are worth more than gold, Askia fears that one false step will expose her true nature. For Askia is a witch gifted with magical abilities—knowledge that could destroy not only her life but her people. As her adversaries draw closer, Askia is forced to make an impossible choice—and no matter what she decides,

it may not be enough to prevent Seravesh's fall. *Crown, Church and Constitution* Crown An editor for The Washington Post's Style section offers a look back on the Miss America pageant as it approaches its 100th anniversary, spotlighting how it has survived decades of social and cultural change and redefined itself alongside evolving ideas of feminism.

Servant of the Crown Berghahn Books 'Good people, I am come hither to die, and by a law I am condemned to the same'. These were the heartbreaking words of a seventeen-year-old girl, Lady Jane Grey, as she stood on the scaffold on a cold February morning in 1554. Her death for high treason sent shockwaves through the Tudor world and served as a gruesome reminder to all who aspired to the Crown that the axe could fall at any time. While the story of 'the Nine Days Queen' has been told, the human and emotional aspects are often ignored. The recent trend of trying to highlight her achievements and her religious faith has, in fact, further obscured the real Jane, a young religious radical who saw herself as an advocate of

Protestantism, and who ultimately became a martyr for her faith. This is an important and significant retelling of an often misread tale, examining evidence that has never before been published. Following Lady Jane Grey's journey from the deadly intrigues of her childhood that led inexorably through to her trial and execution, historian Nicola Tallis unravels the grim tapestry of her life along the way. Magna Carta Quercus This book provides a boldly original account of Middle English literature from the Norman Conquest to the beginning of the sixteenth century. It argues that these centuries are, in fundamental ways, the momentous period in our literary history, for they are the long moment in which the category of literature itself emerged as English writing began to insist, for the first time, that it floated free of any social reality or function. This book also charts the complex mechanisms by which English writing acquired this power in a series of linked close readings of both canonical and more obscure texts. It encloses those readings in five compelling accounts of much broader cultural

areas, describing, in particular, the productive relationship of Middle English writing to medieval technology, insurgency, statecraft and cultural place, concluding with an in depth account of the particular arguments, emphases and techniques English writers used to claim a

wholly new jurisdiction for their work. Both this history and its readings are everywhere informed by the most exciting developments in recent Middle English scholarship as well as literary and cultural theory. It serves as an introduction to all these areas as well as a contribution, in its own

right, to each of them.

Koh-i-Noor HarperCollins UK

In this text, HRH Prince Edward takes the reader on a journey through the history of London's royal connections and explains the architectural heritage of some of the world's most cherished royal landmarks.
