 Provides a

new narrative
 history of the
 ancient world,
 from the
 beginnings of
 civilization in
 the ancient

Near East and Egypt to the fall of Constantinople. Written by an expert in the field, this book presents a narrative history of Babylon from the time of its First Dynasty (1880-1595) until the last centuries of the city's existence during the Hellenistic and Parthian periods (ca. 331-75 AD). Unlike other texts on Ancient Near Eastern and Mesopotamian history, it offers a unique focus on Babylon

and Babylonia, while still providing readers with an awareness of the interaction with other states and peoples. Organized chronologically, it places the various socio-economic and cultural developments and institutions in their historical context. The book also gives religious and intellectual developments more respectable coverage than books that have come

before it. A History of Babylon, 2200 BC - AD 75 teaches readers about the most important phase in the development of Mesopotamian culture. The book offers in-depth chapter coverage on the Sumero-Addadian Background, the rise of Babylon, the decline of the first dynasty, Kassite ascendancy, the second dynasty of Isin, Arameans and Chaldeans, the Assyrian century, the

imperial heyday, and Babylon under foreign rule. Focuses on Babylon and Babylonia. Written by a highly regarded Assyriologist. Part of the very successful Histories of the Ancient World series. An excellent resource for students, instructors, and scholars. *History of Babylon, 2200 BC - AD 75* is a profound text that will be ideal for upper-level undergraduate and graduate

courses on Ancient Near Eastern and Mesopotamian history and scholars of the subject. *The History of Ancient Art*. Routledge. This book presents a complete and accessible description of the history of early India. It starts by discussing the origins and growth of civilizations, empires, and religions. It also deals with the geographical, ecological, and linguistic backgrounds, and looks at specific

cultures of the Neolithic, Chalcolithic, and Vedic periods, as well as at the Harappan civilization. In addition, the rise of Jainism and Buddhism, Magadha and the beginning of territorial states, and the period of Mauryas, Central Asian countries, Satvahanas, Guptas, and Harshavardhana are also analysed. Next, it stresses varna system, urbanization, commerce and trade, developments

in science and philosophy, and cultural legacy. Finally, the process of transition from ancient to medieval India and the origin of the Aryan culture has also been examined.

A History of
Babylon, 2200
BC - AD 75
Routledge
The ancient
world comes
to life in the
first volume in
a two book
series on the
history of
Egypt,
spanning the
first farmers
to the
construction
of the
pyramids.
Famed
archaeologist
John Romer
draws on a
lifetime of
research to
tell one
history's
greatest
stories; how,
over more
than a
thousand
years, a

society of farmers created a rich, vivid world where one of the most astounding of all human-made landmarks, the Great Pyramid, was built. Immersing the reader in the Egypt of the past, Romer examines and challenges the long-held theories about what archaeological finds mean and what stories they tell about how the Egyptians lived. More than just an account of one of the most

fascinating periods of history, this engrossing book asks readers to take a step back and question what they've learned about Egypt in the past. Fans of Stacy Schiff's Cleopatra and history buffs will be captivated by this re-telling of Egyptian history, written by one of the top Egyptologists in the world. A History of Ancient and Early Medieval India: From the Stone Age to the 12th Century (PB)
The Cambridge History of Ancient China Macmillan
Who were the first Britons, and what sort of world did they occupy? In A History of Ancient Britain, much-

loved historian Neil Oliver turns a spotlight on the very beginnings of the story of Britain; on the first people to occupy these islands and their battle for survival. There has been human habitation in Britain, regularly interrupted by Ice Ages, for the best part of a million years. The last retreat of the glaciers 12,000 years ago brought a new and warmer age and with it, one of the greatest

tsunamis recorded on Earth which struck the north-east of Britain, devastating the population and flooding the low-lying plains of what is now the North Sea. The resulting island became, in time, home to a diverse range of cultures and peoples who have left behind them some of the most extraordinary and enigmatic monuments in the world. Through what is revealed by the artefacts

of the past, Neil Oliver weaves the epic story - half a million years of human history up to the departure of the Roman Empire in the Fifth Century AD. It was a period which accounts for more than ninety-nine per cent of humankind's presence on these islands. It is the real story of Britain and of her people.

A History of Ancient Philosophy

Speedy Publishing LLC
 .Why Bother With History?

argues for an increasingly important role for a revitalised historical study. Examining the motivations of past historians, the author rejects the ancient aspiration to a 'history for its own sake' and argues that historians' importance lies in their own adoption of a moral standpoint, from which a story of the past can be told, that facilitates the attainment of a future we desire. Inevitably

controversial, in that it challenges many of the assumptions of modernist history, this is an interdisciplinary book, which draws in particular on psychology and literature. *Histories of Nature A History of Ancient and Early Medieval India* From the Stone Age to the 12th Century India: The Ancient Past provides a clear and systematic introduction to the cultural, political, economic,

social and geographical history of ancient India from the time of the pre-Harappan culture nine thousand years ago up until the beginning of the second millennium of the Common Era. The book engages with methodological and controversial issues by examining key themes such as the Indus-Sarasvati civilization, the Aryan controversy, the development of Vedic and heterodox

religions, and the political economy and social life of ancient Indian kingdoms. This fully revised and updated second edition includes: Three new chapters examining the differences and commonalities between the north and south of India; Extended discussion on contested issues, such as the origins of the Aryans and the role of feudalism in ancient India; New source excerpts to introduce

students to the most significant works in the historiography of India, and questions for discussion; Study guides, including a list of key issues, suggested readings and a selection of internet sources for each chapter; Specially designed maps to illustrate different time periods and geographical regions This richly illustrated guide provides a fascinating account of the early development

of Indian culture and civilization that will appeal to all students of Indian history. *A History of Ancient and Early Medieval India: From the Stone Age to the 12th Century (PB)* W. W. Norton & Company Features a biographical sketch of Egyptian King Akhenaton, or Akhenaten, (14th century B.C.), written by Tore Kjeilen and provided online as part of the "Encyclopedia of the Orient" resource.

Notes that Akhenaton enacted religious reforms that proposed replacing the polytheism of Egypt with monotheism, centered around Aten, the god of the solar disc.

A History of the Ancient Near East, ca. 3000-323 BC Pearson Education India

The Present Book, New History Of Ancient India, Is An Attempt To Present The Indian History In The Light Of Recent Discoveries

And Excavations Made In This Field. The History Of India Before The Invasion Of Alexander The Great In 328 B.C. Has Been Generally Considered A Myth. Accordingly, Brahma, Vishnu And Mahesh, Manu And Mandhata, Harishchandra And Bhagirath, Shri Rama And Shri Krishna, All Have Been Treated Non-Historical, Mythical Personages. But The Recent Discoveries Like Those Of Dwarika Of Shri Krishna In The Sea And Lanka Of Ravana In Orissa As Well As The Authentic Determining Of The Date Of Floods, That Find Mention In The Purana, Have Outrightly Refuted The Past Presumptions. With New Things Coming To Light, It Is Desirable That History Be Rewritten. It Is With This View That The Present Book Has Been

Written. It Aims At Presenting The Information In An Analytic Manner And Also In Chronological Order. Beginning From The Vedic Yuga, The Book Presents An In-Depth Study Of Devasura Yuga, Satya Yuga, Dwapar Yuga And Kaliyuga. All The Information, Both Conventional And Recent, Provided In The Book Are Authentic As They Are Taken From	The Authoritative Sources. The Book Is Unique In Its Presentation As It Richly Provides Maps Of Ancient States, Photographs And Figures, Which Not Only Give A Glimpse Of The Related Age Or Yuga But Also Facilitate Easy Understanding Of Information. Since Miracles, Exaggerations , Mysteries And Supernatural Powers Find No Reference Here, The Book Can Be	Held A Complete, Authoritative Text On Ancient Indian History.It Is Hoped That The Students, Research Scholars And Even Teachers Of Indian History Will Find This Book Highly Useful And Indispensable For Having A Thorough And Updated Knowledge Of Ancient India. Even The General Readers Will Find This Book Extremely Interesting And Informative. <u>History of the Ancient and</u>

tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.

From the Stone Age to the 12th Century John Wiley & Sons
This collection of essays explores the lives and roles of women in antiquity. A recurring theme is the relationship between private and public, and many of the essays find that women's

public roles develop as a result of their private lives, specifically their family relationships. Essays on Hellenistic queens and Spartan and Roman women document how women exerted political power-- usually, but not always, through their relationship to male leaders-- and show how political upheaval created opportunities for them to exercise powers previously

reserved for men. Essays on the writings of Sappho and Nossis focus on the interaction between women's public and private discourses. The collection also includes discussion of Athenian and Roman marriage and the intrusion of the state into the sexual lives of Greek, Roman, and Jewish women as well as an investigation of scientific opinion about female physiology. The

contributors are Sarah B. Pomeroy, Jane McIntosh Snyder, Marilyn M. Skinner, Cynthia B. Patterson, Ann Ellis Hanson, Lesley Dean-Jones, Natalie Boymel Kampen, Mary Taliaferro Boatwright, and Shaye J.D. Cohen. *Ancient, Modern and Postmodern Motivations* Pearson Education India Basic Approach Developed as a comprehensive introductory work for scholars and students of ancient and early medieval Indian history, this books provides the most exhaustive overview of the subject. Dividing the vast historical expanse from the stone age to the 12th century into broad chronological units, it constructs profiles of various geographical regions of the subcontinent, weaving together and analysing an unparalleled range of literary and archaeological evidence. Dealing with prehistory and protohistory of the subcontinent in considerable detail, the narrative of the historical period breaks away from conventional text-based history writing. Providing a window into the world primary sources, it incorporates a large volume of archaeological data, along with literary, epigraphic, and numismatic

evidence. Revealing the ways in which our past is constructed, it explains fundamental concepts, and illuminates contemporary debates, discoveries, and research. Situating prevailing historical debates in their contexts, Ancient and Early Medieval India presents balanced assessments, encouraging readers to independently evaluate theories, evidence, and arguments. Beautifully illustrated with over four hundred photographs, maps, and figures, Ancient and Early Medieval India helps visualize and understand the extraordinarily rich and varied remains of the ancient past of Indian subcontinent. It offers a scholarly and nuanced yet lucid account of India's early past, and will surely transform the discovery of this past into an exciting experience. Study (AD 300-1147) (1994); Ancient Delhi (1999; 2nd edn., 2006); a book for children, *Mysteries of the Past: Archaeological Sites in India* (2002); *The Discovery of Ancient India: Early Archaeologists and the Beginnings of Archaeology* (2004); and *Delhi: Ancient History* (edited, 2006). [The History of Slavery and the Slave Trade, Ancient and Modern](#) OUP India An innovative approach to the history of the First Persian Empire, offering an accessible historical narrative for students and general readers alike *A History of the Achaemenid Empire* considers archaeological and written sources to provide an expansive, source-based introduction to the diverse and culturally rich world of ancient Achaemenid Persia. Assuming no prior background, this accessible textbook follows the dynastic line from the establishment and expansion of the empire under the early Achaemenid kings to its collapse in 330 BCE. The text integrates the latest research, key primary sources, and archaeological data to offer readers deep insights into the empire, its kings, and its people. Chronologically organized chapters contain written, archaeological

, and visual sources that highlight key learning points, stimulate discussion, and encourage readers to evaluate specific pieces of evidence. Throughout the text, author Maria Brosius emphasizes the necessity to critically assess Greek sources—highlighting how their narrative of Achaemenid political history often depicted stereotypical images of the Persians

rather than historical reality. Topics include the establishment of empire under Cyrus the Great, Greek-Persian relations, the creation of a Persian ruling class, the bureaucracy and operation of the empire, Persian diplomacy and foreign policy, and the reign of Darius III. This innovative textbook: Offers a unique approach to Achaemenid history, considering both archaeological

and literary sources Places primary Persian and Near Eastern sources in their cultural, political, and historical context Examines material rarely covered in non-specialist texts, such as royal inscriptions, Aramaic documents, and recent archaeological finds Features a comprehensive introduction to Achaemenid geography, Greek historiography, and modern scholarship on

the Persian War Part of the acclaimed Blackwell History of the Ancient Worldseries, A History of the Achaemenid Empire is a perfect primary textbook for courses in Ancient History, Near Eastern Studies, and Classical Civilizations, as well as an invaluable resource for general readers with interest in the history of empires, particularly the first Persian empire or

Iranian civilization. **Introduction to Ancient History** BRILL
If ancient history is particularly susceptible to a top-down approach, due to the nature of our evidence and its traditional exploitation by modern scholars, another ancient history—‘from below’—is actually possible. This volume examines the possibilities and challenges involved in writing it. Despite

undeniable advances in recent decades, ‘our slowness to reconstruct plausible visions of almost any aspect of society beyond the top-most strata of wealth, power or status’ (as Nicholas Purcell has put it) remains a persistent feature of the field. Therefore, this book concerns a historical field and social groups that are still today neglected by modern scholarship.

However, writing ancient history 'from below' means much more than taking into account the anonymous masses, the subaltern classes and the non-elites. Our task is also, in the felicitous expression coined by Walter Benjamin, 'to brush history against the grain,' to rescue the viewpoint of the subordinated, the traditions of the oppressed. In other words,

we should understand the bulk of ancient populations in light of their own experience and their own reactions to that experience. But, how do we do such a history? What sources can we use? What methods and approaches can we employ? What concepts are required to this endeavour? The contributions mainly engage with questions of theory and methodology, but they also

constitute inspiring case studies in their own right, ranging from classical Greece to the late antique world. This book is aimed not only at readers working on classical Greece, republican and imperial Rome and late antiquity but at anyone interested in 'bottom-up' history and social and population history in general. Although the book is primarily intended for scholars, it will

also appeal to graduate and undergraduate students of history, archaeology and classical studies.

A History of the Indian Subcontinent from c. 7000 BCE to CE 1200

Routledge
Ancient China has a history very rich in culture and traditions. It has gone through leaders and dynasties, and all of these transformed China until it became the cultural and economic hub that it is today. Read

about China's ancient history without the trouble of being bored. You can use this picture book to gather knowledge about the topic. Grab a copy now.

The Immortality

Key W. W. Norton & Company
Our translation is made especially for students who have not yet acquired facility in German. It departs from Professor Bengtson's text mainly in that the

general bibliographical appendix has been reorganized to conform with the plan of the Cambridge Ancient History and also has been revised with the English-reading student in mind.
Akhenaten
Cambridge University Press
Incorporating the latest scholarly research, the third edition of *A History of the Ancient Near East ca. 3000–323 BC* presents a comprehensive overview of

the multicultural civilizations of the ancient Near East. Integrates the most up-to-date research, and includes a rich selection of supplementary materials. Addresses the wide variety of political, social, and cultural developments in the ancient Near	East Updated features include new “Key Debate” boxes at the end of each chapter to engage students with various perspectives on a range of critical issues; a comprehensive timeline of events; and 46 new illustrations,	including 12 color photos. Features a new chapter addressing governance and continuity in the region during the Persian Empire. Offers in-depth, accessible discussions of key texts and sources, including the Bible and the Epic of Gilgamesh.
