Angers, Fantasies and Ghostly Fears analyzes the work of seven Welsh women poets from a relatively neglected period in Welsh literary studies, the nineteenth century. Each of the writers considered, from Jane Cave and Felicia Hemans to Anna Walter Thomas, wrote in a period of rapid and intense social change, yet each maintained her own particular and deeply held connection with Wales. Catherine Brennan argues that although these writers are doubly marginalized by their gender and nationality from dominant cultural discourses, they nevertheless articulate highly significant questions of poetic identity and authority. Using a range of theoretical perspectives, she shows how consciousness of national identity and poetic representation intersect in this period and suggests that the work of these writers, taken as a whole, opens up new ways of understanding class, gender and Welshness in the nineteenth century. Angers, Fantasies and Ghostly Fears is a ground-breaking study of writers all-too-often ignored by mainstream literary history. It will be

essential reading for all those interested in the literary history of Welsh writing in English, women's writing in the nineteenth century, and the discourse of insular imperialism.

This book is about mapping the future of eighteenth-century women's writing and feminist literary history, in an academic culture that is not shy of declaring their obsolescence. It asks: what can or should unite us as scholars devoted to the recovery and study of women's literary history in an era of big data, on the one hand, and ever more narrowly defined specialization, on the other? Leading scholars from the UK and US answer this question in thought-provoking, cross-disciplinary and often polemical essays. Contributors attend to the achievements of eighteenth-century women writers and the scholars who have devoted their lives to them, and map new directions for the advancement of research in the area. They collectively argue that eighteenth-century women's literary history has a future, and that feminism was, and always should be, at its heart. Featuring a Preface by Isobel Grundy, and a Postscript by Cora Kaplan.

A breathtaking novel about love and the horrors of civil war from the bestselling author of The English Patient. 'There is much to astonish, to disturb and to admire in this book... A rare triumph' Guardian Anil's Ghost transports us to Sri Lanka, a country steeped in centuries of tradition, now forced into the late twentieth century by the ravages of a bloody civil war. Enter Anil Tissera, a young woman and forensic anthropologist born in Sri Lanka but educated in the West, sent by an international human rights group to identify the victims of the murder campaigns sweeping the island. When Anil discovers that the bones found in an ancient burial site are in fact those of a much more recent victim, her search for the terrible truth hidden in her homeland begins. What follows is a story about love, about family, about identity - a story driven by a riveting mystery.

The first volume in the new series Gender Studies in Wales, this book argues that the way in which people came to perceive and to represent themselves as Welsh was profoundly affected by the gender ideologies prevalent during the Romantic and Victorian periods. "Nineteenth-Century Women's Writing in Wales: Nation, Gender and Identity" introduces readers to a hundred Welsh women authors at work during the years 1780-1900, some writing in Welsh and some in English. In so doing, it rescues many of these authors from critical neglect and oblivion. In the second half of the nineteenth century in particular, Welsh women writers in both languages were numerous and enjoyed a degree of influence on Welsh culture easily commensurate with that of women writers today. By covering the nineteenth century chronologically, this book traces the coming into being of the Welsh nation as its women in particular saw it, and as they helped to create it.

**Eighteenth Century Writing from Wales** Springer

In the period following the French revolution in 1789, Welsh poets continually reflected on the extraordinary new era in which they lived through their writing. Effortlessly ranging from Wales's deep and distant history to accounts of the most topical and urgent current affairs, their poems on

war, Welshness, druids, parted lovers and sublime landscapes encompass the beautiful, the brutal and the mysterious. Facing a future that often seemed agonisingly uncertain, poets in Wales used their verses to voice their thoughts and feelings about events that had rocked the whole of Europe, and whose effects continued to be felt long after 1789. This new selection of poetry from Wales sets recently-discovered manuscript texts alongside little-known early printed poems, offering a full and accessible introduction to Welsh poetry in English in the period 1780-1820.

*Writing and Fantasy* brings together essays which restore a sense of the fantastic as a political response to cultural opportunities and pressures. It moves on from two conventional fields of discussion: the psychoanalytic, where phantasies are produced by the emergence of the consciousness, and the social, where fantasies are the production of nineteenth-century individualism. Chapters run from the classical period to the twentieth century, each focusing on a local reading of how fantasy acts as a strategy to contain or exploit specific historical and cultural moments. A wide variety of sites are investigated including the feminization of the wild west, originary and maternal spaces, highwaywomen, financial credit, and the ideal home. Multiple genres containing fantasy are explored, ranging from ghost stories to feminist utopias. Aids to the reader include an introduction summarising recent discussions of fantasy, illustrations dealing with visual fantasies, and an annotated bibliography. The new research presented here will be of great interest to academics and students in literature, history and cultural studies departments who are working in the field of the historical development of concepts of fantasy, cultural opposition, and the imbrication of politics and modes of representation.

*Nation and Migration* explores the significant contributions of Scotland, Ireland, and Wales to the development of a British Atlantic literature and culture, moving beyond traditional studies of transatlantic literature that focus on what Stephen Spender has described as the "love-hate relations" between the United States and England. By allowing England to stand in for the British archipelago, Juliet Shields argues, recent literary scholarship has oversimplified the processes through which the new United States differentiated itself culturally from Britain and underestimated the impact of migration on British nation formation during the late eighteenth and early nineteenth centuries. In short, *Nation and Migration* provides a literary history for a nation that still considers itself a land of immigrants. Scottish, Irish, and Welsh migrants brought with them to the American colonies and early republic stories and traditions very different from those shared by English settlers. Americans looked to these stories for narratives of cultural and racial origins through which to legitimate their new nation. Writers situated in Britain's Celtic peripheries in turn drew on American discourses of rights and liberties to assert the cultural independence of Scotland, Ireland, and Wales from the English imperial center. The stories that late eighteenth- and early nineteenth-century Britons and Americans told about transatlantic migration and settlement, whether from the position of migrant or observer, reveal the tenuousness and fragility of Britain and the United States as relatively new national entities. These stories illustrate the dialectical relationship between nation and migration.

*Hope and Heartbreak* looks in an entirely new way at the social history of Wales between the years 1776 and 1871. This innovative book challenges a large number of generally held views about Wales, and tries to offer an alternative history of the country's idiosyncrasies and contradictions. To do this a wide range of evidence is considered to present the ambitions and anxieties which drove and destroyed Welsh people. "Russell Davies's study ranges far and wide, from landlords to peasants, rich and poor, in the north and the south. Diet and housing, disease and death, rural festivals, prisons and mental hospitals, work and worries, fear and anger, love and lust, wizards and wonders, bastards and ballads and happiness and humour are only a few of the topics covered in this all-encompassing social history. The tensions beneath the facade of family life, the vigour of prostitution and pornography and the private world of the individual are investigated. Using the life experiences of individuals, *Hope and Heartbreak* opens up the hidden world of the people of Wales." "The book asks a range of questions which are new to Welsh history. Was Wales a land of passionless women and pure men, or were there passionate sensualists amongst the pious saints? What made the Welsh fearful, tearful, happy, lonely, self-conscious, anxious, bored, hysterical and violent? How did they behave as capitalists, colonists and conquerors? How can one make sense of their religious doubts and disputes? Did religion lead to a decline in magic? There is also a detailed examination of the *joie de vivre*, the forgotten humour and the unique flavour of Welsh laughter."--BOOK JACKET.

*The Routledge Companion to Romantic Women Writers* overviews critical reception for Romantic women writers from their earliest periodical reviews through the most current scholarship and directs users to avenues of future research. It is divided into two parts. The first section offers topical discussions on the status of provincial poets, on women's engagement in children's literature, the relation of women writers to their religious backgrounds, the historical backgrounds to women's orientalism, and their engagement in debates on slavery and abolition. The second part surveys the life and careers of individual women - some 47 in all with sections for biography, biographical resources, works, modern editions, archival holdings, critical reception, and avenues for further research. The final sections of each essay offer further guidance for researchers, including "Signatures" under which the author published, and a "List of Works" accompanied, whenever possible, with contemporary prices and publishing formats. To facilitate research, a robust "Works Cited" includes all texts mentioned or quoted in the essay.

"By investigating Romantic-era negotiations of Welsh culture both by writers seeking to further the assimilation of the Welsh, and by those seeking to protect and preserve a distinctive cultural identity for the Welsh, this book traces the effects of differing historiographic approaches to identity formation, allowing for a better understanding of how cultural material can be productively reworked in order to gain a specific end."--BOOK JACKET.
