"The Way to the West" tells the story of the opening of the west, including the accounts of three early Americans Daniel Boone, Davy Crockett and Kit Carson. "The Story of the Cowboy" is a historical book about the cowboy in the American West close to the end of 19th century. "The Story of the Outlaw" is a study of the western desperado, with historical narratives of famous outlaws, the stories of noted border wars, vigilante movements, and armed conflicts on the frontier, including the profiles of Billy the Kid and Pat Garrett. "The Passing of the Frontier" explains the part of the frontier in history and what Lewis and Clark came up against when they passed it on their great expedition across the continent. Emerson Hough (1857-1923) was an American author best known for writing western stories, adventure tales and historical novels. His best known works include western novels The Mississippi Bubble and The Covered Wagon, The Young Alaskans series of adventure novels, and historical works The Way to the West and The Story of the Cowboy.

Defining the construct of interaction for paired assessment purposes has been difficult, despite the evolution of our view of language to include the social perspective of co-construction, and the fact that such discourse is increasingly taught and assessed. In this volume three sequenced studies define interaction in paired oral assessment through the verbal protocols of learners of Spanish and their assessors. Assessors then scale performances from videoed test performance data resulting in the development of an evidence based rating process which includes non-verbal interpersonal communication, interactive listening and interactional management.

Malcolm K. Read employs a psychoanalytic model which sees civilization as a manner of instinctual renunciation in this analysis of selected texts from the sixteenth, seventeenth, and eighteenth centuries. Focusing on their moments of silence and contradiction, he demonstrates that certain

attitudes toward the body expressed in these texts have a basis, albeit unconscious, in a motivation which is ultimately political. The central topics, deeply intertwined thematically and theoretically, relate to the nature and development of language; to the Baroque art of Gongora and Quevedo; to Feijoo's defense of the rationalist subject set against Torres Villarreal's subversion of the same; and to the neo-classical aesthetics of Luzan and Arteaga. The result is an interdisciplinary approach that challenges traditional assumptions in both literary criticism and linguistic historiography.

In this powerful and incisive book Jackson not only revises completely the reputations of Ted Hughes, but also Seamus Heaney, Carl Jung and Karl Marx amongst others and in this way characterises the clashing spiritual forces that work upon us in this time. One poet's experience of spiritual heights and depths is pitted against, and used to illuminate and measure, the very different path taken by another. In unfolding the meaning of the clash between his work and Ted Hughes' Jackson makes profound revelations concerning the forces and powers that play upon us as individuals and on humanity as a whole. Although what he has to say is profoundly serious, Jackson writes a prose that is vividly democratic and colloquial and often very funny. Jackson has won his way to a place where true things can be said without intellectual jargon or relying on old religiosity. *Sparkle, Assassin* John Benjamins Publishing

"The history of Foreign Language Teaching in India arrived at a point of transformation with the liberalization of Indian politics and economics since 1991. Although the Indians had experienced the learning of English as a foreign language due to their colonial past, the need to learn other European/Romance/Germanic languages has intensified with the growing linkage of India with the developed and developing countries in the post-Cold War era. In response to this intensified need for learning foreign languages, many new foreign programs of study/curricula have been introduced in Indian schools (especially those with international curriculum). The central objective of this book is to shed light on the specific challenges of teaching Spanish language through foreign curricula in India. The book performs a qualitative study not only to investigate the problems of teaching Spanish language but also to design suggestive measures to resolve these pedagogical problems." *Panorama hispanohablante Student Book 1* Cambridge University Press

The Great Christian Jurists series comprises a library of national volumes of detailed biographies of leading jurists, judges and practitioners, assessing the impact of their Christian faith on the professional output of the individuals studied. Spanish legal culture, developed during the Spanish Golden Age, has had a significant influence on the legal norms and institutions that emerged in Europe and in Latin America. This volume examines the lives of twenty key personalities in Spanish legal history, in particular how their Christian faith was a factor in molding the evolution of law. Each chapter discusses a jurist within his or her intellectual and political context. All chapters have been written by distinguished legal scholars from Spain and around the world. This diversity of international and methodological perspectives gives the volume its unique character; it will appeal to scholars, lawyers, and students interested in the interplay between religion and law.

The International Baccalaureate (IB) is a respected qualification gaining increasing currency around the world, and which has been adopted by a wide variety of schools, both public and private. In the UK, growing dissatisfaction with the A-level system has led to an intense debate about alternative qualifications, and in many schools IB courses have been introduced alongside conventional A-level courses. This practical introduction to the IB takes a balanced look at the pros and cons and features a wealth of advice from those actually involved in teaching and implementing it in schools. Providing comparative material on how IB courses differ from A-levels and a subject-by-subject account of best practice in teaching the IB, this book offers a rich source of practical advice for teachers, school leaders or managers involved in teaching or implementing the IB programmes.
