In To Deep When it comes to walking in the wrong direction, we all have a testimony to tell. Instead of loving those that were created to provide protection over us, we find ourselves hating the very ground they walk on. We create a mental prison and lock them up; sometimes for many years. Refusing to use the key of forgiveness to release them so that we too may become free; we aimlessly walk around in silent frustration. And all this because of the pain and suffering one has infringed upon us in the past. Because of our cancerous thoughts we build a stronghold around our heart; and even if we want to release those from our mental prison, it's easier to find a reason to keep them locked up. You even believe wholeheartedly this is the right thing to do and that God has your back. But thank God for those "on time" experiences that hinder you from staying on Destruction Road and places you on Destiny Highway. If I was ever going to

considered turning back, its to late now, because I am In Too Deep.

The word holistic comes from the Greek root holos, which means whole, total, entire. Holistic means to understand the entire human being. In holistic health, the entire human being is considered, paying attention to the interaction and integration of the biological and physiological (body and breath), psychological (conscious and unconscious mind) and philosophical (soul) dimensions. The emphasis is on treating the whole patient and not just the symptoms of disease. Man has to realize that he is not a body alone. He is a breathing being and a thinking being with complex emotions, appetites and desires. To maintain good health, the following guidelines must be considered: Nourish and exercise the physical body Make the breath deep, smooth, even and continuous Discipline the senses Quieten the mind Calm the emotions Cultivate contentment Discover the inner being, the soul or center of consciousness The purpose of life is to be happy and free from pains, fears and miseries. This can be achieved by practicing a self-training program as set forth in this manual.
