Maja Haderlaps Gedichte haben etwas zu erzählen. Sie sprechen mit faszinierender Eindringlichkeit von Fremdsein und Nachhausekommen, von weiten Landschaften und engen Behausungen, von Menschen, die unterwegs sind: auf der Suche nach dem, was ihr Leben ausmachen könnte. Das kann der Andere

sein, der Nächste, die Gemeinschaft, das kann die Einsamkeit oder das Gedicht selbst sein, für das eine Sprache gefunden werden muss. Tiefe Emotionalität stellt sich her, gerade weil sie nicht beschworen wird.

Soziale Arbeit entwickelt sich als Handlungswissenschaft ständig weiter und benötigt hierfür fortwährend neue soziale Innovationen für die Praxis. Duale Hochschulen erfüllen diesen Auftrag durch Lehre und Forschung und in enger

Verzahnung mit Praxispartnern, vermehrt auch durch gesellschaftliches Engagement. Ergebnisse dieses intensiven wechselseitigen Wissenstransfers werden jedoch zu selten an die Fachöffentlichkeit weitergegeben. Der Sammelband publiziert eine Auswahl exzellenter Bachelorarbeiten. Reflektiert werden handlungsorientierte Anwendungsmöglichkeiten zur Ausgestaltung von Hilfsangeboten auf der Grundlage aktueller Forschungsergebnisse und wissenschaftstheoretischer Erkenntnisse.

A notoriously reclusive artist, Sergio Larrain (1931-2012) has nonetheless become a touchstone for those who have come to know and love his work, including authors Roberto Bolano and Julio Cortazar. Celebrated by Henri Cartier-Bresson, his contemporary and a co-founder of Magnum, Larrain's experimental process yielded images that transformed the fixed nature of the medium. His images have left generations of viewers in awe of the simultaneous serenity and spontaneity that a camera can capture--when placed, that is, in the hands of an artist with such rare meditative passion. "A good image is born from a state of grace," the artist once explained. "Sergio Larrain," a selection of more than 200 images, rectifies Larrain's omission from the canon of significant twentieth-century photographers, and combines his work in Latin America with photographs taken in Europe. Following a creatively fertile period in the 1950s and

60s, Larrain put away his camera and devoted himself to the solitary pursuit of spiritual mysticism, a decision that further contributed to his reputation as a romantic, a "fatal personage," in the words of Bolano. Created with the encouragement of Larrain's family, the book is sumptuously produced, designed by Xavier Barral and edited by Agnes Sire, who enjoyed a long correspondence with the photographer and has worked with Magnum on preserving his photographic estate.

Das Buch besitzt nicht unbedingt den Charakter eines klassischen Lehrbuches. Anhand von Abhandlungen und Fallstudien zu einzelnen Themengebieten des Controllings und des Kostenmanagements wird ein Umriss der in der Praxis

vorkommenden Instrumente und ihrer Anwendungsmöglichkeiten gegeben. Sowohl instrumentenspezifische Artikel wie zum Projektcontrolling oder zu Transferpreisen in Profit Center Organisationen werden behandelt als auch Branchenlösungen, wie beispielsweise Konsumgüterhandel oder im öffentlichen Privatverkehr. Das Lehrbuch wendet sich in erster Linie an Studierende der Wirtschaftswissenschaften und Hörer anderer Fakultäten, die sich problemorientiert einen fundierten Überblick über wichtige Systeme und Verfahren des Kosten- und Erfolgsmanagements sowie des Controllings verschaffen wollen.

The main body of work by painter Egon Schiele (1890-1918), who died at an early age, was produced within barely a decade. His famous nudes unwaveringly probed the existential core of human experience. The paintings of Jenny Saville (* 1970 in Cambridge) are no less intense in terms of their physicality and confrontational stance. This catalogue brings together the works of these two artists for the first time. Revealed is the stylistic and thematic proximity of the body-landscapes and portraits by the two young "stars"-- despite the decades separating their work and their varying use of the brush. The paintings and drawings of both artists lend the human body an insistent corporeality, which is rendered in every detail. In Schiele's self-portraits, usually small-format works, the pose, the accentuated view from below, and gestural style give the images a visual impact equal to the forceful punch of Saville's giant formats.
