Drawing on comparative literary studies, postcolonial book history, and multiple, literary, and alternative modernities, this collection approaches the study of alternative literary modernities from the perspective of comparative print culture. The term comparative print culture designates a wide range of scholarly practices that discover, examine, document, and/or historicize various printed materials and their reproduction, circulation, and uses across genres, languages, media, and technologies, all within a comparative orientation. This book explores alternative literary modernities mostly by highlighting the distinct ways in which literary and cultural print modernities outside Europe evince the repurposing of European systems and cultures of print and further deconstruct their perceived universality.

In this richly detailed study, Kamala Nayar documents the social and cultural transformation of the Punjabi community in British Columbia. From their initial settlement in the rural Skeena region to the communities that later developed in larger urban centres, The Punjabis in British Columbia illustrates the complex and diverse experiences of an immigrant community that merits greater attention. Exploring themes of gender, employment, rural and urban migrant life, and the relationships between the Punjabis and surrounding First Nations and other immigrant groups, Nayar creates a portrait of a community in transition. Shedding light on the ways in which economic circumstances affect immigrant communities, Nayar presents findings from interviews conducted with over one hundred participants. She details the relocation of Punjabi populations from the Skeena region to British Columbia's lower mainland during the decline of the forestry and fishery industries, how their second migration changed their professional and personal lives, and how their history continues to shape the identities and experiences of Punjabis in Canada today. A nuanced look at the complexities of social and cultural adaptation, The Punjabis in British Columbia adds an essential perspective to what it means to be Canadian.

What is a suitable genre to describe the post-9/11 era mired in wars, violence, and unspeakable horror? What kind of literary expressions and techniques are appropriate to give voice to the prevalence of global anguish in the post-9/11 scenario? Is the Theatre of the Absurd a viable option for the expression of the incongruity of the unspeakable horror unleashed after 9/11? Is the term 'absurd' applicable to this era? If yes, in what terms is this applicable? This book tries to find answers to these questions and many more. It reflects on the epistemological shifts in the avant-garde tradition of the Theatre of the Absurd, its ongoing critical currency in contemporary history, and its changing contours in the post-9/11 plays of Rajiv Joseph, an emerging American dramatist. It establishes the continued relevance of the Theatre of the Absurd at the current juncture of human history.

This expansive four-volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity. One of the most popular and widespread religions in the world, Islam has attracted a great deal of attention in recent times, particularly in the Western world. With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans, there is ever increasing need to examine and understand Islam as a religion and historical force. Islam: A Worldwide Encyclopedia provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time. The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition. Each entry begins with a basic introduction, followed by a general discussion of the subject and a conclusion. Each entry also features a further readings list for readers. In addition to supplying a comprehensive, authoritative overview of Islam, this work also specifically addresses many controversial related issues, including jihad, violence in Islam, polygamy, and apostasy.

I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system. The book examines the questions: Why and how has a small elite class come to rule Pakistan? And how has their rule worsened the country's problems? The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society. The book represents the fusion of my experiences in Pakistan with extensive literature analysis, interviews, and textbook analysis. This research began when I came to the United States in January 2015 through the SAR program. I wanted to know the answers to profoundly unsettling questions. How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western-educated scholars with traditional insular thoughts are not only appreciated but flourishing? I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed. Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky-high inflation. The influential religious leaders mostly belong to the elite class while their followers are mostly lower class. Ruling families and social classes mostly control appointed positions. Do those in power not have a responsibility to speak on issues of social justice rather than

limiting themselves in claiming that theirs is the only true form of Islam? Why don't they work to end the disparity of quality education between classes in Pakistan? Instead, many elites run their own lucrative elite Islamic schools. More importantly, why do the ulama (which literally means "those who possess knowledge [ilm], particularly of Islam") maintain a tight hierarchical system in the madrasa (Islamic seminary) community that rarely allows poor intelligent students to attain leadership positions? Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities? Book Review: "Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions, intolerance and conflicts. Dr. Amna Afreen documents the political, socio-economic and religious causes-limited government funding, widespread poverty and illiteracy and the poor training and performance of teachers- that have produced a failed educational system at urban and rural government and religious schools (madrasa) and offers a series of potential solutions and reforms." -- John L. Esposito, University Professor and Founding Director of The Alwaleed Center for Muslim-Christian Understanding, Georgetown University.
