The project of Indian art cinema began in the years following independence in 1947, at once evoking the global reach of the term "art film" and speaking to the aspirations of the new nation-state. In this pioneering book, Rochona Majumdar examines key works of Indian art cinema to demonstrate how film emerged as a mode of doing history and that, in so doing, it anticipated some of the most influential insights of postcolonial thought. Majumdar details how filmmakers as well as a host of film societies and publications sought to foster a new cinematic culture for the new nation, fueled by enthusiasm for a future of progress and development. Good films would help make good citizens: art cinema would not only earn global prestige but also shape discerning individuals capable of exercising aesthetic and political judgment. During the 1960s, however, Satyajit Ray, Mrinal Sen, and Ritwik Ghatak—the leading figures of Indian art cinema—became disillusioned with the belief that film was integral to national development. Instead, Majumdar

contends, their works captured the unresolvable contradictions of the postcolonial present, which pointed toward possible, yet unrealized futures. Analyzing the films of Ray, Sen, and Ghatak, and working through previously unexplored archives of film society publications, Majumdar offers a radical reinterpretation of Indian film history. *Art Cinema and India's Forgotten Futures* offers sweeping new insights into film's relationship with the postcolonial condition and its role in decolonial imaginations of the future.

India has come a long way from being a nuclear pariah to a de facto member of the nuclear club. The transition in its nuclear identity has been accompanied by its transformation into a major

economic power and underlines a pragmatic turn in its foreign-policy thinking. This book provides a historical narrative of the evolution of India's nuclear policy since 1947, as the country continues its pursuit for complete integration into the global nuclear order. Situating India's nuclear behaviour in this context, the book explains how India's engagement with the atom is unique in international nuclear history and politics. Aided by declassified archival documents and oral history interviews, it focuses on how status, security, domestic politics, and the role of individuals have played a key role in defining and shaping India's nuclear trajectory, policy choices, and their consequences.

In the newest *Jana Bibi* adventure from Betsy Woodman, Jana, Mr. Ganguly, and the gang are back as their small town in India is rocked by an espionage scandal and a homemade remedy that has love on everyone's mind The Jolly Grant House still welcomes all its visitors with the sign *Jana Bibi's Excellent Fortunes* hanging proudly outside its front door. Jana's fortune-telling has brought a lot of attention to the small town of Hamara Nagar, and now that the dust has settled and the town is safe from the threat of being flooded by a government dam, all eyes are on the Scottish-born card-reader Jana and her feisty, loose-beaked parrot, Mr. Ganguly. Some people, though, are not to be trusted, and Mr. Ganguly finds himself the target of a potential kidnapping that puts Jana and her household on edge. Meanwhile, love is in the air and, thanks to Abenath's Apothecary, it's also in a bottle. Abenath has created an intoxicating brew that he calls Love Potion Number 10, which seems to have Jana in a tizzy. While she explores her newest hobby, dream interpretation, her head is swimming with questions: Is a new love possible at age fifty-nine? If so, would she ever marry again? All around her she sees different kinds of love and connection—family, arranged marriages, chemical attractions, even intercontinental romance between people who have only met through letters—so when an old flame arrives and rekindles long-gone feelings, Jana begins to think that Love Potion Number 10 just might be the magic elixir its inventor thinks it is.

The election of Kamala Devi Harris, born of an immigrant Indian mother, cancer specialist Shyamala Gopalan, originally from Chennai, has put the global spotlight like never before on the small but high-achieving Indian-American diaspora. The community happens to be the most educated with the highest median income in the US, and has excelled in almost every area it has touched—from politics to administration, entrepreneurship to technology, medicine to hospitality, science to academia, business to entertainment, philanthropy to social activism. This evocative collection—of the kind perhaps not attempted before—captures the rise of Indian-Americans across domains, by exceptional achievers themselves, like Shashi Tharoor, the ones who have been and continue to be a part of the "rise", like MR Rangaswami and Deepak Raj, top Indian diplomats like TP Sreenivasan and Arun K Singh, scholars like Pradeep K Khosla and Maina Chawla Singh, and others who were part of, associated with, or keenly followed their stories. A collector's item, this

eye-opening saga of a diaspora, which is possibly amongst the most successful and enterprising globally, would not only prove to be highly readable and insightful for a wide readership, but also immensely substantive for scholars and people in governance.

This book examines in detail the strategic relevance of the Arthashastra. Attributed to the fourth century B.C., this classical treatise on state and statecraft rests at the intersection of political theory and international relations. Adopting a hermeneutic approach, the book discusses certain homologies related to concepts such as power, order, and morality. Underlining the conceptual value of the Arthashastra and classical texts such as *Hitopdesha* and *Pancatantra*, this volume highlights the non-western perspectives related to diplomacy and statecraft. It shows how a comparative analysis of these texts reveals a continuity rather than a change in the styles, tactics, and political strategies. The book also showcases the value these ancient texts can bring to the study of contemporary international relations and political theory. This volume will be of interest to students, scholars and teachers of political studies, Indian political thought, and philosophy, South Asian studies, political theory and international relations.
