In Storm Rising, mysterious mage-storms are wreaking havoc on Valdemar, Karse, and all the kingdoms of the West, plaguing these lands not only with disastrous earthquakes, monsoons, and ice storms, but also with venomous magical constructs - terrifying creatures out of nightmare. Both Valdemar's Heralds and Karse's Sunpriests struggle to marshal their combined magical resources to protect their realms from these devastating, spell-fueled onslaughts. But as the situation becomes bleaker and bleaker, the still fragile alliance between these long-hostile lands begins to fray. And unless Valdemar and Karse can locate and destroy the creator of the storms, they may see their entire world demolished in a final magical holocaust.

In this new series, set in the bestselling world of Valdemar, Heralds Mags and Amily must continue to protect the realm of Valdemar while raising their children and preparing them to follow in their footsteps. Mags, Herald Spy of Valdemar, and his wife, Amily, the King's Own Herald, are happily married with three kids. The oldest, Peregrine, has the Gift of Animal Mindspeech—he can talk to animals and persuade them to act as he wishes. Perry's dream is to follow in his father's footsteps as a Herald Spy, but he has yet to be Chosen by a Companion. Mags is more than happy to teach Perry all he knows. He regularly trains his children, including Perry, with tests and exercises, preparing them for the complicated and dangerous lives they will likely lead. Perry has already held positions in the Royal Palace as a runner and in the kitchen, useful places where he can learn to listen and collect information. But there is growing rural unrest in a community on the border of Valdemar. A report filled with tales of strange disappearances and missing peddlers is sent to

Haven by a Herald from the Pelagirs. To let Perry experience life away from home and out in the world, Mags proposes that his son accompany him on an expedition to discover what is really going on. During their travels, Perry's Animal Mindspeech allows him to communicate with the local wildlife of the Pelagirs, whose connection to the land aids in their investigation. But the details he gleans from the creatures only deepen the mystery. As Perry, Mags, and their animal companions draw closer to the heart of the danger, they must discover the truth behind the disappearances at the border—before those disappearances turn deadly.

And some were like nothing anyone had ever dreamed up, even in their worst nightmares. Monsters. Long ago, the barriers between our world and the Otherworld were ripped open, and it's taken centuries to bring back civilization in the wake of the catastrophe. Now, the luckiest Cits live in enclosed communities, behind walls that keep them safe from the hideous creatures fighting to break through. Others are not so lucky. To Joyeaux Charmand, who has been a Hunter in her tight-knit mountain community since she was a child, every Cit without magic deserves her protection from dangerous Othersiders. Then she is called to Apex City, where the best Hunters are kept to protect the most important people. Joy soon realizes

that the city's powerful leaders care more about luring Cits into a false sense of security than protecting them. More and more monsters are getting through the barriers, and the close calls are becoming too frequent to ignore. Yet the Cits have no sense of how much danger they're in—to them, Joy and her corp of fellow Hunters are just action stars they watch on TV. When an act of sabotage against Joy takes an unbearable toll, Joy uncovers a terrifying conspiracy in the city. There is something much worse than the usual monsters infiltrating Apex.
