77 Steps to Help You Master Evernote and Organize Your Life Better Bloomsbury Publishing

Serial Drawing offers a timely and rigorous exploration of a relatively little-researched art form. Serial drawings - artworks that are presented as singular works but are made up of distributed parts - are studied in fresh, contemporary terms with a novel philosophical approach, emphasizing both the way in which this unique form of visual art exists in the world, and how it is encountered by the beholder. Inspired by the quadruple framework of Graham Harman's object-oriented ontology, Joe Graham explores a variety of serial drawings according to the idea that, in being serially arrayed, such artworks constitute a rather particular form of art object: one which is both unified yet pluralised, visible yet withdrawn. Examining works by artists such as Alexei Jawlensky, Ellsworth Kelly, Hanne Darboven, Jill Baroff and Stefana McClure, Graham interrogates the manner in which serial drawings are able to be appreciated by the viewer who beholds them in object-oriented terms. This task is carried out by paying attention to the manner in which three tensions - space, time and seriality - emerge for consideration within the beholders performative encounter with the work: an encounter which is 'seen serially', and which the medium of drawing specifically

directs their attention towards.

Hacking Secrets and Evernote Essentials HarperCollins

Why are some companies able to generate committed, long-term
 customers while others struggle to stay afloat? Why do the
 employees of some organizations fully dedicate themselves while
 others punch the clock without enthusiasm? By studying the ins
 and outs of companies that enjoy extraordinary loyalty from
 customers and employees, John Jantsch reveals the systematic
 path to discovering and generating genuine commitment.
 Jantsch's approach is built on three foundational planks, which he
 calls the clarity path, the culture patron, and the customer
 promise. He draws on his own experiences and shares true
 stories from businesses like Threadless, Evernote, and Warby
 Parker. His strategies include these: Build your company around a
 purpose. People commit to companies and stories that have a
 simple, straightforward purpose. Understand that culture equals
 brand. Build your business as a brand that employees and
 customers will support. Lead by telling great stories. You can't
 attract the right people or get them to commit without telling a
 story about why you do what you do. Treat your staff as your
 customer. A healthy customer community is the natural result of
 a healthy internal culture. Serve customers you respect. It's hard
 to have an authentic relationship with people you don't know,
 like, or trust. As Jantsch says, "Have you ever encountered a
 business where everything felt effortless? The experience was
 perfect, and the products, people, and brand worked together
 gracefully. You made an odd request; it was greeted with a smile.
 You went to try a new feature; it was right where it should be.
 You walked in, sat down, and felt right at home. . . . Businesses
 that run so smoothly as to seem self-managed aren't normal. In
 fact, they are terribly counterintuitive, but terribly simple as it
 turns out." As a follow-up to *The Referral Engine*, this is about
 more than just establishing leads- it's about building a fully alive
 business that attracts customers for life.
