Cowboys for Christmas West Academic Publishing

An award-winning writer reimagines the life of Jesus, from the points of view of four people closest to him before his death. This is the story of Yehoshuah, who wandered Roman-occupied Judea giving sermons and healing the sick. Now, a year after his death, four people tell their stories. His mother grieves, his friend lehuda loses his faith, the High Priest of the Temple tries to keep the peace, and a rebel named Bar-Avo strives to bring that peace tumbling down. It was a time of political power plays and brutal tyranny. Men and women took to the streets to protest. Dictators put them down with iron force. In the midst of it all, one inconsequential preacher died. And either something miraculous happened, or someone lied. Viscerally powerful in its depictions of the period -- massacres and riots, animal sacrifice and human betrayal -- *The Liars' Gospel* makes the oldest story entirely new.

WHATEVER YOU BORROW MUST BE REPAID... Andrew Brown never has enough time. No time to call his sister, or to prepare for that important presentation at the bank where he works. The train's late, the lift jams. If only he had just a little more time. And time is the business of Mr Symington and Mr Blenkinsop. They'll lend him some - at a very reasonable rate of interest. Scenting something sinister, the Doctor, Amy and Rory go undercover at the bank. But they have to move fast to stop Symington and Blenkinsop before they cash in their investments. Borrowed Time is a thrilling race against the clock from Naomi A Alderman, the Bailey's Prize winning author of *The Power* featuring the Eleventh Doctor, Amy and Rory, as played by Matt Smith, Karen Gillan and Arthur Darvill in the spectacular hit *Doctor Who* series from BBC Television. 'Alderman is a fluent and powerful writer' - Sunday Times

A cautionary memoir about a man's attempt to overcome depression without doctors, therapists, or medication, the results alternating between hilarity and tragedy. This is an important and timely wake up call to men (and their loved ones) who misunderstand depression or are commonly resistant "to talk about it." Christopher Scott Downing is a thirty-three year-old grocery manager with a lot on his mind. He's up to his neck with a team of rascals, a second-in-command who'll do anything for his job, way too much debt, a girlfriend who can't wait for him to break up with her, and, it turns out, a brain that's begun shutting down just when he needs it most. As if that wasn't bad enough, his favorite baseball team is having the worst year ever. Van Gogh in Peppers chronicles Christopher's misguided plans to deal with all this. Without the help of doctors, therapists, or meds, he decides to triumph entirely alone over everything, including his physical brain that's apparently out to get him. This plan turns out to be a very, very bad idea. This memoir will begin your own discussion about Major Depressive Disorder by exploring these questions: - What do men experience under depression? - How does depression manifest in men uniquely? - Why do many men

refuse help with this treatable disease? This memoir won't give you a single piece of sound advice. Not for overcoming depression. So you can just forget about that. Instead, you'll experience a level of honesty you often don't get from the men as they're going through it. Or from most men, really. Especially from those who "don't want to talk about it." Van Gogh in Peppers will put you there in the moment, revealing more details of male depression than you might even know to ask. Veteran psychologist Steven J. Hanley, Ph.D. provides the wonderful, thought-provoking foreword. 2% OF PROCEEDS SERVE CHARITIES FOR MENTAL HEALTH ADVOCACY.

This book features over 180 photographs and accompanying texts of Russian criminal tattoos from the Arkady Bronnikov collection. From the mid-1960s to the late- 1980s Bronnikov worked as a

senior expert in criminalistics at the USSR Ministry of Internal Affairs, part of his duties involved visiting correctional institutions of the Ural and Siberia regions. It was here that he interviewed, gathered information and took photographs of convicts and their tattoos, building one of the most comprehensive archives of this phenomenon. He regularly helped to solve criminal cases across Russia by using his collection of tattoos to identify culprits and corpses. The Bronnikov collection was made exclusively for police use, to further the understanding of the language of these tattoos and to act as an aid in the identification and apprehension of criminals in the field. Unimpeded by artistry, these vernacular photographs present a guileless representation of criminal society. Every image discloses evidence of an inmate's character: aggressive, vulnerable, melancholic, conceited. Their bodies display an unofficial history, told not just through tattoos, but also in scars and missing digits. Closer inspection only confirms our inability to comprehend the unimaginable lives of this previously unacknowledged caste.

Washington Babylon describes in shocking detail the corruption of the political establishment, Republicans and Democrats alike.

Journey through Babylon's darkest regions, and you will learn how Babylon's millionaire journalists connived to deny money to disabled children; how House Speaker Newt Gingrich really spells F-A-M-I-L-Y V-A-L-U-E-S, and how he spent his student days at Tulane campaigning for sex photos in a student newspaper; how Commerce Secretary Ron Brown lobbied for Haitian monster "Baby Doc" Duvalier and Guatemalan torturers; how the co-director of the Los Alamos National Laboratory searched for Atlantis, tried to train dolphins in ESP, suspected aliens were impregnating earth women; how Big Oil's tax-exempt foundations bought up the green elite while reaping millions from rape-and-pillage investments; how 80,000 lobbyists have bought out Babylon; and how Bill and Hillary Clinton struck a devil's pact with Big Money nearly twenty years ago.

The 2nd edition of the Securities Litigation and Enforcement Nutshell focuses on an area of law that burgeoned nearly two decades ago after the accounting and corporate governance scandals at Enron, WorldCom, and other large publicly traded companies. It is an area of law that has only continued to expand with the 2008 financial crisis and subsequent legislation, including the Dodd-Frank Act of 2010 and the JOBS Act of 2012, and with several recent rulings by the U.S. Supreme Court. The Nutshell examines private, SEC, and criminal enforcement of the federal securities laws, with an emphasis on the elements that establish securities fraud, and the doctrinal and practical issues that typically emerge in prosecuting or defending such claims.
