"Heart-stopping and relentlessly gripping. Tabor takes us on an odyssey into unfathomable worlds beneath us, and into the hearts of rare explorers who will do anything to get there first."—Robert Kurson, author of *Shadow Divers* In 2004, two great scientist-explorers attempted to find the bottom of the world. American Bill Stone took on the vast, deadly Cheve Cave in southern Mexico. Ukrainian Alexander Klimchouk targeted Krubera, a freezing nightmare of a supercave in the war-torn former Soviet republic of Georgia. Both men spent months almost two vertical miles

deep, contending with thousand-foot drops, raging whitewater rivers, monstrous waterfalls, mile-long belly crawls, and the psychological horrors produced by weeks in absolute darkness, beyond all hope of rescue. Based on his unprecedented access to logs and journals as well as hours of personal interviews, James Tabor has crafted a thrilling exploration of man's timeless urge to discover—and of two extraordinary men whose pursuit of greatness led them to the heights of triumph and the depths of tragedy. *Blind Descent* is an unforgettable addition to the classic literature of true-life adventure, and a testament to human survival and endurance. "Holds the reader to his seat, containing dangers aplenty with deadly falls, killer microbes, sudden burial, asphyxiation, claustrophobia, anxiety, and hallucinations far underneath the ground in a lightless world. Using a pulse-pounding narrative, this is tense real-life adventure pitting two master cavers mirroring the cold war with very uncommonly high stakes."—Publishers Weekly (starred review) "A fascinating and informative introduction to the sport of cave diving, as well as a dramatic portrayal of a significant man-vs.-nature conflict. . . . What counts is Tabor's knack for maximizing dramatic potential, while also managing to be informative and attentive to the major personalities associated with the most important cave explorations of the last two decades."—Kirkus Reviews

Chris and Chrissy Rouse, an experienced father-and-son scuba diving team, hoped to achieve widespread recognition for their outstanding but controversial diving skills. Obsessed and ambitious, they sought to solve the secrets of a mysterious, undocumented World War II German U-boat that lay under 230 feet of water, only a half-day's mission from New York Harbor. In doing so, they paid the ultimate price in their quest for fame. Bernie Chowdhury, himself an expert diver and a close friend of the Rouses', explores the thrill-seeking world of deep-sea diving, including its legendary figures, most celebrated triumphs, and gruesome tragedies. By examining the diver's psychology through the complex father-and-son dynamic, Chowdhury illuminates the extreme sport diver's push toward—and sometimes beyond—the limits of human endurance.

Only available in e-book form, this is the presentation in one volume of four books in Simon Pridmore's Scuba series: *Scuba Fundamental*, *Scuba Confidential*, *Scuba Exceptional* and *Scuba Professional*. In musical terms, *Scuba Compendium* is a re-mastering and repackaging of the original albums rather than a

greatest hits or a Best of compilation. The books were written and published over a period of eight years and each book was designed for divers at a particular point in their diving life. Listed in the order they were written, the audience for *Scuba Confidential* was the general population of divers; *Scuba Professional* was for those thinking of making a career out of the sport; *Scuba Fundamental* was for non-divers and beginners and *Scuba Exceptional* was for more experienced divers. The idea was not to create a series. It just turned out that way. A number of topics merited inclusion for multiple groups of readers - rebreathers and surface safety for example - which meant that there was some unavoidable overlap between the individual books. In *Scuba Compendium*, the text and chapters have been cleaned up and streamlined to remove any unnecessary repetition and improve continuity. Apart from this, nothing is missing from the four original books and the only new material is an introductory chapter on the philosophy behind the Scuba series. So, if you already own all the books in the Scuba series, from a content point of view you have no need to buy this one. However, from a reference point of view, some readers may find it an advantage to have these four books in one volume where every word or phrase in the series is easily searchable on an e-reader. They are arranged here in the order in which they make sense as a series, following the path from beginner to diver to experienced diver to expert. *Scuba Compendium* covers the full gamut of the sport diving experience and is a resource that will accompany a scuba diver throughout their career in the sport, wherever it takes them, to be dipped back into from time to time whenever necessary. If you only own one or two books in the series, then you may find *Scuba Compendium* well worthwhile for another reason too. For instance, if you are not a beginner, you may think you don't need to read *Scuba Fundamental*, but many experienced divers have found it useful and entertaining. Also, *Scuba Professional* introduces a number of topics, such as real risk awareness and constructive paranoia, which are just as relevant for amateur divers as they are for professionals. Although the title makes it sound as if *Scuba Professional* is only for instructors, this is certainly not the case. And, of course, if you have not yet bought any of these four Scuba series books, then this is a great option to buy all of them together with just one click. "Scuba Fundamental is a great book! Simon Pridmore is to be congratulated for this insightful, interesting and honest introduction to scuba diving. He tells it as it is!" John Lippmann, Divers Alert Network "If PADI's Open-Water manual is the Bible of scuba diving, consider this the New Testament." David Espinosa, Editor in Chief, Sport Diver magazines "I so wish Scuba Exceptional had existed when I was in the early days of my diving life nearly 30 years ago!" Phil Short, explorer and pioneer "There is quite simply nothing like *Scuba Professional*. It is the ultimate

backstage pass into the business of scuba." Jill Heinerth, explorer and filmmaker

'One of the best accounts ever written of deep-water diving and its staggering, haunting dangers' Robert Kurson, New York Times bestselling author of *Shadow Divers* Deep underwater lurks a mysterious man-made illness. It has gone by many names over the years – Satan's disease, diver's palsy, the chokes – but today, medics call it decompression sickness. You know it as the bends. That's the devil British diver Martin Robson faces each time he plunges beneath the surface. In the winter of 2012, Robson was part of an expedition to Blue Lake, southern Russia, which sought to find a submerged cave system never seen by the human eye. On the final day of the expedition, as Robson returned from diving deeper into the lake than anyone had before, disaster struck: just seventy-five feet down, he was ambushed by the bends. Robson knew that if he continued up to the surface he would probably die before help arrived. Instead, he sank back into the water, gambling on an underwater practice most doctors believe is a suicidal act. Soon the only hope he had of saving his life would rest in the hands of a dramatic mercy mission organised at the highest levels of the Russian government. Between the Devil and the Deep is the first book to tell the terrifying true story of what it feels like to get the bends, taking you inside the body and mind of a man who suffered the unthinkable. Writer Mark Cowan also explores the grimly fascinating history of decompression sickness, the science behind what causes the disease, and the stories of the forgotten divers who pushed the limits of physical endurance to help find a solution.

Taking you to places no one has ever gone before, and blending memoir, adventure, and science, *Into the Planet* is a riveting account of one of the most dangerous yet exhilarating pursuits in the world: diving to the centre of the earth. "If I die, it will be in the most glorious place that nobody has ever seen." As one of the most celebrated cave divers in the world, Jill Heinerth has seen the planet in a way almost no one has. In a workday, she might swim below your home, through conduits in volcanoes or cracks in the world's largest iceberg. She's an explorer, a scientist's eyes and hands underwater—discovering new species and examining our finite freshwater reserves—and a filmmaker documenting the wonders of underwater life. Often the lone woman in a male-dominated domain, she tests the limits of human endurance at every tight turn, risking her life with each mission. To not only survive in this world but excel, Jill has had to learn how to master self-doubt like no other. With gripping storytelling that radiates intimacy, *Into the Planet* will transport you deep into the most exquisite, untouched corners of the earth, where fear must be reconciled and the innermost parts of the human condition are revealed.

Clive Cussler introduces Sam and Remi Fargo in *Spartan Gold*. An ancient treasure stolen by Xerxes the Great . . . Discovered by Napoleon Bonaparte . . . The clues to its hidden location lost until now . . . Adventurers and treasure hunters Sam and Remi Fargo are on a wild-goose chase. Up to their waists in the Great Pocomoke Swamp in Maryland, they're hunting for lost gold. What they find instead is a small Second World War German U-boat. Inside the submarine they find a body - and a puzzling, incredibly rare bottle of wine. This bottle was one of twelve taken from Napoleon's 'lost cellar'. But it is also a clue to a fabulous, ancient treasure. One that Hadeon Bondaruk - a half-Russian, half-Persian millionaire - will do anything to get his hands on. For he claims descent from treasure's one-time owner. It will be his, no matter who stands in his way . . . Clive Cussler, author of the celebrated Dirk Pitt novels *Arctic Drift* and *Crescent Dawn*, presents his newest series, following the adventures of treasure hunters Sam and Remi Fargo - beginning with *Spartan Gold*. In the New York Times bestseller that the Washington Post called "Lean In for misfits," Sophia Amoruso shares how she went from dumpster diving to founding one of the fastest-growing retailers in the world. Amoruso spent her teens hitchhiking, committing petty theft, and scrounging in dumpsters for leftover bagels. By age twenty-two she had dropped out of school, and was broke, directionless, and checking IDs in the lobby of an art school—a job she'd taken for the health insurance. It was in that lobby that Sophia decided to start selling vintage clothes on eBay. Flash forward to today, and she's the founder of Nasty Gal and the founder and CEO of Girlboss. Sophia was never a typical CEO, or a typical anything, and she's written #GIRLBOSS for other girls like her: outsiders (and insiders) seeking a unique path to success, even when that path is windy as all hell and lined with naysayers. #GIRLBOSS proves that being successful isn't about where you went to college or how popular you were in high school. It's about trusting your instincts and following your gut; knowing which rules to follow and which to break; when to button up and when to let your freak flag fly. "A witty and cleverly told account . . . It's this kind of honest advice, plus the humorous ups and downs of her rise in online retail, that make the book so appealing." —Los Angeles Times "Amoruso teaches the innovative and entrepreneurial among us to play to our strengths, learn from our mistakes, and know when to break a few of the traditional rules." —Vanity Fair "#GIRLBOSS is more than a book . . . #GIRLBOSS is a movement." —Lena Dunham

As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. Appearing in paperback for the first time—with twenty arresting new photos and an extensive Q&A with the author—*Unbroken* is an unforgettable testament to the resilience of the human mind, body, and spirit, brought vividly to life by Seabiscuit author Laura Hillenbrand.
