Foss Mixtures And
Solutions Videosimple

mixtures, suspensions,
and solutions. Students
make mixtures of
water and solid
materials and separate
the mixtures with
screens and filters.
They find that water

and salt make a particular kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. They begin to develop a model of dissolving.

MIXTURES AND SOLUTIONS

Overview - FOSS

Module Matrix

Mixtures and Solutions

Module 3 Content

Reading Assessment •

- A mixture is two or more materials intermingled.
- An aqueous solution is a mixture in which a substance disappears (dissolves) in water to make a clear liquid.
- Mixtures can be separated into their constituents by using screen, filters, and evaporation.

MIXTURES AND SOLUTIONS

Overview - FOSS

Just remember, a mixture is

any combination of two or more substances that don't chemically combine and a solution is a homogeneous mixture, meaning the ratio of substances is uniform throughout

...Mixtures vs Solutions

| Know the Difference

Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a special kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. Students are challenged with a problem: how to separate a mixture of three dry solid materials.
