 Vehicle maintenance.

The autobiography of XKC 051 Haynes Publications

There have been other generations of Jaguar XK since, but the definitive incarnation is the family of 6-cylinder sports cars that stretch from the late 1940s to the mid-1970s, from XK120 to the E-Type. On road, on track and on rally stage, they built the foundations of Jaguar's sporty image and giant-killing reputation, not to mention its commercial roots - especially in America. By any definition, the 6-cylinder XKs are at the heart of everything that Jaguar grew into. This is the complete story of the whole 6-cylinder XK generation, the circumstances, the people and the events that created it and made it a sports car legend - and guaranteed that forever after, in Jaguar's vocabulary, XK would always mean 'sports car'.

Classic Jaguar XK The Crowood Press

NEW YORK TIMES BESTSELLER • "As sweet and funny and sad and true and heartfelt a memoir as one could find." —from the foreword by Augusten Burroughs
 Ever since he was young, John Robison longed to connect with other people, but by the time he was a teenager, his odd habits—an inclination to blurt out non sequiturs, avoid eye contact, dismantle radios, and dig five-foot holes (and stick his younger brother, Augusten Burroughs,

in them)—had earned him the label "social deviant." It was not until he was forty that he was diagnosed with a form of autism called Asperger's syndrome. That understanding transformed the way he saw himself—and the world. A born storyteller, Robison has written a moving, darkly funny memoir about a life that has taken him from developing exploding guitars for KISS to building a family of his own. It's a strange, sly, indelible account—sometimes alien yet always deeply human.

The Jaguar XK8 was launched to great acclaim in 1996 as the successor to the XJS, and the model range has been built on ever since. With styling cues taken from the E-type and the XJ220 supercar, and powered by a new 4.0-litre V8 engine, the XK8 found instant success on both sides of the Atlantic. Nearly 10 years after its launch, the styling remains virtually unchanged, which says a lot for the original concept. This fascinating, all-color book is essential reading for all XK8 owners and enthusiasts.

This book tells the story of one of the six alloy-bodied XK 120s that were prepared by Jaguar in 1950 for racing and rallying. This one, known as JWK 651 because of the registration number, was owned by Leslie Johnson and raced by him in some of the most prestigious events of the time, including the Le Mans 24 Hours, the Mille Miglia (twice) and the Tourist Trophy at Dundrod. Beyond that, Johnson and up-and-coming racing driver Stirling Moss visited the speed bowl at Montlhery for a record-breaking attempt, and Johnson also took part in the RAC Rally. In 1950, the car lay in second place in the Le Mans 24 Hours after 15 hours and was gaining on the leaders when the clutch failed. Besides this diverse and distinguished period competition career, the book tells the story of the later life of this most significant XK 120. The book includes a wealth of period photographs as well as a portfolio of magnificent studio images

The Jaguar XK was launched to great acclaim in 1996 as the successor to the XJS. Jaguar's XK sports models were produced from 1996 to 2014 in two distinct forms: the original steel-bodied XK, and, in 2005, the advanced technology aluminium-bodied New XK. Highly significant for Jaguar, these cars reintroduced the world to Jaguar sports car motoring and, in doing so, echoed the success of previous icons, such as the E-type. The original edition of this book covered just the X-100 (original series) XKs from 1996 through to 2005. This edition, now in paperback, brings the story up to date with the X-150 alloy-bodied cars, from 2006 through to the end of production in 2014. A significantly enlarged work, packed with information and over 130 additional full-colour pictures, this fascinating book is essential reading for all XK owners, prospective owners and enthusiasts - the perfect XK 'handbook.'
