Contabilidad administrativa: un enfoque estratégico para la competitividad CIFOR

The "forgotten" second volume of *Capital*, Marx's world-shaking analysis of economics, politics, and history, contains the vital discussion of commodity, the cornerstone to Marx's theories.

Costos II Berrett-Koehler Publishers

The power of the commons as a free, fair system of provisioning

and governance beyond capitalism, socialism, and other -isms. From co-housing and agroecology to fisheries and open-source everything, people around the world are increasingly turning to 'commoning' to emancipate themselves from a predatory market-state system. *Free, Fair, and Alive* presents a foundational rethinking of the commons — the self-organized social system that humans have used for millennia to meet their needs. It offers a compelling vision of a future beyond the dead-end binary of capitalism versus socialism that has almost brought the world to its knees. Written by two leading commons activists of our time, this guide is a penetrating cultural critique, table-pounding political treatise, and practical playbook. Highly readable and full

of colorful stories, coverage includes: Internal dynamics of commoning How the commons worldview opens up new possibilities for change Role of language in reorienting our perceptions and political strategies Seeing the potential of commoning everywhere. Free, Fair, and Alive provides a fresh, non-academic synthesis of contemporary commons written for a popular, activist-minded audience. It presents a compelling narrative: that we can be free and creative people, govern ourselves through fair and accountable institutions, and experience the aliveness of authentic human presence.

La Gestión gerencial de costos, constituye una de las obras que ofrecen un cambio acorde con nuestros tiempos, pensando en las dificultades de aprendizaje de la materia de contabilidad de costos. Cambio que se produce adaptando la Filosofía del Justo a tiempo en lo referente a su impacto en la determinación de costos industriales. Nuestra portada, una manzana dorada refleja

la necesidad de satisfacer globalmente las necesidades de información que solicitan los ejecutivos de las empresas para la constante toma de decisiones, no para el mañana sino para el hoy, soluciones inmediatas a los problemas planteados y planeación oportuna ante diversas alternativas presentadas en los resultados de operación de una organización. El manejo de cifras en hojas electrónicas con ejemplos de todos los métodos de costos constituye la herramienta principal para ofrecer alternativas, las cuales al efectuar el cambio en las cifras expresadas en un estado de resultados y su correspondiente análisis de costos, provocan en forma inmediata los resultados esperados. Los formatos presentados en el CD que se incluye constituyen para los contadores, administradores, informáticos, gerentes, jefes de área y socios de la empresa la solución ideal para observar los cambios de precios, producción y ventas; la búsqueda de niveles óptimos de medición, controles y políticas a seguir de todos los involucrados en una empresa en particular, adaptando los principios y las sugerencias que son expresados en la consecución de los estados financieros expresados. El Instituto Mexicano de Contadores Públicos se enorgullece de presentar esta obra del Maestro Raúl Andrés Cárdenas y Nápoles que continúa su acervo literario a favor de los estudiantes de la materia de Costos II, brindando un panorama novedoso mediante su método SMP, adoptando a nuestra realidad la idea central de los japoneses en materia de costos, que cobra otra dimensión al simplificar lo conocido por muchísimas décadas en un ahorro de tiempo y esfuerzo hasta 75% de trabajo contable, haciendo mucho más ventajosa y oportuna la información que se produce, pudiendo convertir el método al costeo tradicional o variable

según sea el caso, para dar cumplimiento a las disposiciones fiscales sobre la materia.

The Bar and Beverage Book New Society Publishers

In the newly updated edition of this classic empowerment business fable—over 400,000 copies sold—Ken Blanchard and John Carlos show you how to shift to an empowered, employee-driven work environment. *Empowerment Takes More Than a Minute* tells the story of a young manager whose attempts to turn his troubled company around through traditional top-down, command-and-control management are failing. Reluctantly, he contacts an expert in empowerment, even though he feels like he's already tried that approach. Step by step, the expert helps him understand why his past and present efforts have fallen short and figure out what he needs to do to create an empowered workforce. The process as it unfolds is complex, paradoxical, and counterintuitive—but well worth the effort. This new edition dispels the notion that empowerment is a bygone fad. No matter what its name, the essential concept—that organizations can achieve extraordinary results by recognizing and taking advantage of the skills, experience, and knowledge already existing in the organization—will always be relevant. Although sometimes arduous, the journey to empowerment is well worth embarking on. In fact, unleashing the power of people in an organization may be the only way to continue to do business in a competitive, complicated marketplace.

Fundamentals of Reporting Information to Managers McGraw-Hill/Irwin

Based on a survey of more than 6700 top civil servants in 17 European countries, this book explores the impacts of New Public

Management (NPM)-style reforms in Europe from a uniquely comparative perspective. It examines and analyses empirical findings regarding the dynamics, major trends and tools of administrative reforms, with special focus on the diversity of top executives' perceptions about the effects of those reforms.

National Strategy and Policy Options OECD Publishing

"With this new seventh edition of *Classics of Public Administration*, authors Jay M. Shafritz and Albert C. Hyde aim to introduce students to the principles of public administration via the most significant scholarly writings on the topic.

Straightforward and informative, this text begins its discussion with Woodrow Wilson and continues to today's political scientists. A new Section V, "Public Administration in a New Century," is dedicated to writing and thinking from the 21st century. This edition includes six new readings and addresses the key fields of public administration: bureaucracy, organization theory, human resources management, the budgetary process, public policy, implementation, evaluation, intergovernmental relations, and public service ethics."--Publisher's description.

Family-owned businesses account for many of the small and medium-sized enterprises that exist around the world in various industries. Due to their unique make up, these firms are often heavily influenced by family dynamics that must be reconciled by family and non-family workers alike in order to ensure the sustainability of the business. As smaller businesses competing against an increasingly globalized economy and more directly

impacted by economic instability, especially in the wake of the COVID-19 pandemic, these businesses must continue to improve their practices and processes in order to not only survive but thrive. The Research Anthology on Strategies for Maintaining Successful Family Firms discusses the strategies, sustainability, and human aspects of family firms in order to understand what sets them apart from other businesses and how they can survive and compete in a globalized economy. This book discusses the unique dynamic brought by family firms that offers both opportunities and challenges for a growing business. Covering topics such as corporate venturing, the family unit, and business ethics, this text is an essential resource for family firms, entrepreneurs, managers, business students, business professors, researchers, and academicians.

In addition, content has been added or enhanced to reflect the changing focus on finance areas including topics such as discounted payback period, dividend practices of foreign firms, risk management, and real options.

Realising REDD+ IGI Global

From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument

against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society's most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. "Clever and charismatic" (The New Yorker), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and "a thought-provoking examination of our working lives" (Financial Times).

REDD+ must be transformational. REDD+ requires broad institutional and governance reforms, such as tenure, decentralisation, and corruption control. These reforms will enable departures from business as usual, and involve communities and forest users in making and implementing policies that affect them. Policies must go beyond forestry. REDD+ strategies must include policies outside the forestry sector narrowly defined, such as agriculture and energy, and better coordinate across sectors to deal with non-forest drivers of deforestation and degradation. Performance-based payments are key, yet limited. Payments based on performance directly incentivise and compensate forest owners and users. But schemes such as payments for environmental services (PES) depend on conditions, such as secure tenure, solid carbon data and transparent governance, that are often lacking and take time to change. This constraint reinforces the need for broad institutional and policy reforms. We must learn from the past.

Many approaches to REDD+ now being considered are similar to previous efforts to conserve and better manage forests, often with limited success. Taking on board lessons learned from past experience will improve the prospects of REDD+ effectiveness. National circumstances and uncertainty must be factored in. Different country contexts will create a variety of REDD+ models with different institutional and policy mixes. Uncertainties about the shape of the future global REDD+ system, national readiness and political consensus require flexibility and a phased approach to REDD+ implementation.

On 24 April 1942, Czechoslovak journalist and active CPC member Julius Fucik was detained in Pankrác Prison in Prague, where he was subsequently interrogated and tortured, before being sent to Germany to stand trial for high treason. It was during this time that Fucik's *Notes from the Gallows* (Czech: *Reportáž psaná na oprátce*, literally *Reports Written Under the Noose*) arose—written on pieces of cigarette paper and smuggled out by two sympathetic prison warders named Kolinsky and Hora. The notes were treated as great literary works after his death in

1943 and translated into many languages worldwide, resulting in this book, which was first published in English in 1948. It describes events in the prison since Fucik's arrest and is filled with hope for a better, Communist future.
