The 10 Commandments of  
Marriage Bloomsbury  
Wildlife  
"TACKY is about the  
power of pop culture --  
like any art, low or high --

to imprint itself on our  
lives and shape our  
experiences, no matter  
one's commitment to  
"good" taste. These  
fifteen essays are a  
nostalgia-soaked antidote  
to the millennial  
generation's obsession  
with irony, putting the  
aesthetics we've learned

to hate to love -- frosted  
tips and glosses, Sex and  
the City, The Cheesecake  
Factory -- into kinder and  
sharper perspective. Each  
essay revolves around a  
different maligned (and  
yet, Rax would argue,  
vital) cultural artifact and  
its entwinement with  
Rax's millennial coming-

of-age: an essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father, who loved the show; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures a personal and generational experience with clarity, humor, and heartfelt honesty"--

 Chronicle Books  
 The twelfth-century French poet Chrétien de Troyes is a major figure in

European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in

verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Yale University Press  
An officer. An outcast. A  
fight for survival. The  
Great Reawakening did  
not come quietly.  
Suddenly people from all  
corners of the globe  
began to develop  
terrifying powers.  
Overnight the rules had  
changed... but not for  
everyone. Fortress  
Frontier is the second  
chilling thriller in Myke  
Cole's Shadow Ops trilogy,  
perfect for fans of Peter V.  
Brett and Brandon  
Sanderson. 'I suspect this  
is the best ride that  
military fantasy has to

offer - you definitely will  
want to get on board' -  
Mark Lawrence, author of  
King of Thorns Alan  
Bookbinder might be a  
Colonel in the US Army,  
but in his heart he knows  
he's just a desk jockey, a  
clerk with a silver eagle  
on his jacket. But one  
morning he is woken by a  
terrible nightmare and  
overcome by an ominous  
drowning sensation.  
Something is very, very  
wrong. Forced into  
working for the  
Supernatural Operations  
Corps in a new and  
dangerous world,

Bookbinder's only hope of  
finding a way back to his  
family will mean teaming  
up with former SOC  
operator and public  
enemy number one: Oscar  
Britton. They will have to  
put everything on the line  
if they are to save  
thousands of soldiers  
trapped inside a frontier  
fortress on the brink of  
destruction, and show the  
people back home the  
stark realities of a war  
that threatens to wipe out  
everything they're trying  
to protect. What readers  
are saying about Fortress  
Frontier: 'An excellent mix

of military drama, sci-fi, adventure and mystical mayhem all rolled into one' 'Grips you from the beginning, and the fast pace doesn't let up. A great continuation' 'The action really races with surprising twists and turns'

 "Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213

provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.

In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. Stand Firm: Apologetics and the Brilliance of the Gospel argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad

variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these

considerations with the gospel so that we may stand firm in our faith.

"This volume of measurement instruments in the English language arts is the second one produced by the Research Instruments Project (TRIP), which was designed to collect and evaluate research instruments in language arts, language and language development,

literacy, literature, oral language, reading, teacher knowledge/attitudes, and writing. The 160 measurement instruments are arranged alphabetically by category; within each category, measures are listed alphabetically by author. All instruments are cross-referenced by author. The age range indicated is the specific age grouping as stated by the authors or the age of the sample to whom the instrument was administered. The

description of the instrument provides the purpose of the instrument, the date of construction, and a physical description of the instrument--often including sample items and administration data (directions, time, scoring procedures, and so forth). The lack of reliability and validity data for instruments is indicated when the information was unavailable. In the case of tables of difficulty, indexes, and so on, the data contained are summarized and the

complete data are made available with the test or references cited. (HOD)" -- Google Books viewed January 22, 2021.
