Contemporary Morphology BRILL

This examination of the mixed jurisdiction experience makes use of an innovative cross-comparative methodology to provide a wealth of detail on each of the nine countries studied. It identifies the deep resemblances and salient traits of this legal family and the broad analytical overview highlights the family links while providing a detailed individual treatment of each country which reveals their individual personalities. This updated second edition includes two new countries (Botswana and Malta) and the appendices explore all other mixed jurisdictions and contain a special report on Cameroon.

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical guide to cyber law – the law affecting information and communication technology (ICT) – in Italy covers every aspect of the subject, including intellectual property rights in the ICT sector, relevant competition rules, drafting and negotiating ICT-related contracts, electronic transactions, privacy issues, and computer crime. Lawyers who handle transnational matters will appreciate the

detailed explanation of specific characteristics of practice and procedure. Following a general introduction, the book assembles its information and guidance in seven main areas of practice: the regulatory framework of the electronic communications market; software protection, legal protection of databases or chips, and other intellectual property matters; contracts with regard to software licensing and network services, with special attention to case law in this area; rules with regard to electronic evidence, regulation of electronic signatures, electronic banking, and electronic commerce; specific laws and regulations with respect to the liability of network operators and service providers and related product liability; protection of individual persons in the context of the processing of personal data and confidentiality; and the application of substantive criminal law in the area of ICT. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Italy will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative law in this relatively new and challenging field.

A Play in Seven Scenes Edward Elgar Publishing

The volume is devoted to the relevant problems in the legal sphere, created and generated by recent advances in science and technology. In particular, it investigates a series of cutting-edge contemporary and controversial case-studies where scientific and

technological issues intersect with individual legal rights. The book addresses challenging topics at the intersection of communication technologies and biotech innovations such as freedom of expression, right to health, knowledge production, Internet content regulation, accessibility and freedom of scientific research.

"Swiss architects Marianne Burkhalter and Christian Sumi are dedicated to an exploration of the nature of materials and construction. In the last fifteen years, they have built a series of remarkable buildings in wood and stone in Germany, Austria, and Switzerland. Their work is a thoughtful pursuit of the fundamentals of architectural construction—a style that, like that of Zumthor's buildings, might be called Alpine minimalism. Their interest in simple forms and shapes, in luminous color, in the natural grain patterns of wood, and in the opportunities afforded by joinery and other forms of craftsmanship are evident in every aspect of their built work. This comprehensive monograph includes an in-depth look at 25 of Burkhalter and Sumi's projects, including their most famous built work, the Hotel Zurichberg. Essays by Eugene Asse, Detlef Mertins, Steven Spier, and Lynnette Widder, based respectively in Moscow, Toronto, London, and New York, explore their unique style and demonstrate the growing international acknowledgement of their practice." -- Publisher description.

per il culo. ODIOSITÀ ED IMPOSIZIONE. Tu esisti se la tv ti considera. La Tv esiste se tu la guardi. I Fatti sono fatti oggettivi naturali e rimangono tali. Le Opinioni sono atti soggettivi cangianti. Le opinioni se sono oggetto di discussione ed approfondimento, diventano testimonianze. Ergo: Fatti. Con me le Opinioni cangianti e contrapposte diventano fatti. Con me la Cronaca diventa Storia. Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Oggi le persone si stimano e si rispettano in base al loro grado di utilità materiale da rendere agli altri e non, invece, al loro valore intrinseco ed estrinseco intellettuale. Per questo gli inutili sono emarginati o ignorati. Se si è omologati (uguali) o conformati (simili) e si sta sempre dietro alla massa, non si sarà mai primi nella vita, perché ci sarà sempre il più furbo o il più fortunato a precederti.

The Third Legal Family Good Press

The first Muslim woman to receive the Nobel Peace Prize, Shirin Ebadi has inspired millions around the globe through her work as a human rights lawyer defending women and children

against a brutal regime in Iran. Now Ebadi tells her story of courage and defiance in the face of a government out to destroy her, her family, and her mission: to bring justice to the people and the country she loves. For years the Islamic Republic tried to intimidate Ebadi, but after Mahmoud Ahmadinejad rose to power in 2005, the censorship and persecution intensified. The government wiretapped Ebadi's phones, bugged her law firm, sent spies to follow her, harassed her colleagues, detained her daughter, and arrested her sister on trumped-up charges. It shut down her lectures, fired up mobs to attack her home, seized her offices, and nailed a death threat to her front door. Despite finding herself living under circumstances reminiscent of a spy novel, nothing could keep Ebadi from speaking out and standing up for human dignity. But it was not until she received a phone call from her distraught husband—and he made a shocking confession that would all but destroy her family—that she realized what the intelligence apparatus was capable of to silence its critics. The Iranian government would end up taking everything from Shirin Ebadi—her marriage, friends, and colleagues, her home, her legal career, even her Nobel Prize—but the one thing it could never steal was her spirit to fight for justice and a better future. This is the amazing, at times harrowing, simply astonishing story of a woman who would never give up, no matter the risks. Just as her words and deeds have inspired a nation, *Until We Are Free* will inspire you to find the courage to stand up for your beliefs. Praise for *Until We Are Free* “Ebadi recounts the cycle of sinister assaults she faced after she won the Nobel Prize in 2003. Her new memoir, written as a

novel-like narrative, captures the precariousness of her situation and her determination to ‘stand firm.’”—The Washington Post “Powerful . . . Although [Ebadi’s] memoir underscores that a slow change will have to come from within Iran, it is also proof of the stunning effects of her nonviolent struggle on behalf of those who bravely, and at a very high cost, keep pushing for the most basic rights.”—The New York Times Book Review “Shirin Ebadi is quite simply the most vital voice for freedom and human rights in Iran.”—Reza Aslan, author of *No god but God and Zealot* “Shirin Ebadi writes of exile hauntingly and speaks of Iran, her homeland, as the poets do. Ebadi is unafraid of addressing the personal as well as the political and does both fiercely, with introspection and fire.”—Fatima Bhutto, author of *The Shadow of the Crescent Moon* “I would encourage all to read Dr. Shirin Ebadi’s memoir and to understand how her struggle for human rights continued after winning the Nobel Peace Prize. It is also fascinating to see how she has been affected positively and negatively by her Nobel Prize. This is a must read for all.”—Desmond Tutu “A revealing portrait of the state of political oppression in Iran . . . [Ebadi] is an inspiring figure, and her suspenseful, evocative story is unforgettable.”—Publishers Weekly (starred review) “Ebadi’s courage and strength of character are evident throughout this engrossing text.”—Kirkus Reviews

Artificial intelligence (AI) is becoming increasingly more prevalent in our daily social and professional lives. Although AI systems and robots bring many benefits, they present several challenges as well. The autonomous and opaque nature of AI systems implies that their commercialisation will affect the legal and regulatory framework. In this comprehensive book, scholars critically examine how AI systems may impact Belgian law. It contains contributions on consumer protection, contract law, liability, data protection, procedural law, insurance, health, intellectual property, arbitration, lethal autonomous weapons, tax law, employment law, ethics. While specific topics of Belgian private and public law are thoroughly addressed, the book also provides a general overview of a number of regulatory and ethical AI evolutions and tendencies in the European Union. Therefore, it is a must-read for legal scholars, practitioners and government officials as well as for anyone with an interest in law and AI.

Three Finnish siblings head for the logging fields of nineteenth-century America in the New York

Times–bestselling author’s “commanding historical epic” (Washington Post). Born into a farm family, the three Koski siblings—Ilmari, Matti, and Aino—are

raised to maintain their grit and resiliency in the face of hardship. This lesson in *sisu* takes on special meaning when their father is arrested by imperial Russian authorities, never to be seen again. Lured by the prospects of the Homestead Act, Ilmari and Matti set sail for America, while young Aino, feeling betrayed and adrift after her Marxist cell is exposed, follows soon after. The brothers establish themselves among a logging community in southern Washington, not far from the Columbia River. In this New World, they each find themselves—Ilmari as the family’s spiritual rock; Matti as a fearless logger and entrepreneur; and Aino as a fiercely independent woman and union activist who is willing to make any sacrifice for the cause that sustains her. Layered with fascinating historical detail, this novel bears witness to the stump-ridden fields that the loggers—and the first waves of modernity—leave behind. At its heart, *Deep River* explores the place of the individual, and of the immigrant, in an America still in the process of defining its own identity.

This book introduces state-of-the-art models and methods based on the neuroendocrine-immune-inspired approaches in the field of manufacturing control systems. It develops various bio-inspired intelligent approaches for multiple applications in order to efficiently generate production plans and control solutions and agilely deal with the frequent unexpected disturbances at the shop floor level. It also provides an introduction to bio-inspired manufacturing systems with intelligent control structures and the latest technologies. Further, the book describes recent advances in the bio-inspired methodology for a high-level adaptability in manufacturing systems, including the bio-inspired control architecture and the implementation of intelligent and adaptive control approaches based on neuroendocrine-immune mechanisms and hormone-regulation principles. It offers a valuable resource for graduate students, researchers and engineers in the fields of production management, manufacturing system control and related areas. /div

From international bestselling author Cristina Caboni comes an exquisite and engrossing novel of two women, centuries apart, bound by a love of books and a longing for self-discovery. With her delicate touch, Sofia Bauer restores books to their original splendor. In this art she finds refuge from her crumbling marriage and the feeling that her once-vibrant life is slipping away. Then an antique German edition takes her breath away. Slipped covertly into the endpapers is an intriguing missive,

the first part of a secret...from one bookbinder to another. Two hundred years ago, Clarice von Harmel defied the constraints of family and society to engage in a profession forbidden to women. Within three separate volumes, Clarice bound her own hidden story filled with pain, longing, and love beyond all reason. A confession that now crosses centuries to touch the heart of a stranger. With the help of book collector Tomaso Leoni, Sofia connects the threads of Clarice's past, page by page, line by line, town by town. She's determined to make Clarice's voice heard. With each new revelation, Clarice is giving Sofia the courage to find her own voice and hope for the future she thought was lost.

This book examines the challenges posed to contemporary international law by the shifting role of the border, which has recently re-emerged as a central issue in international relations. It posits that borders do not merely correspond to States' boundaries: indeed, while remaining a fundamental tool for asserting States' power, they are in fact a collection of constantly changing spatial limits. Consequently, the book approaches borders as context-specific limits and revisits notions traditionally linked to them (jurisdiction, sovereignty, responsibility, individual rights), while also adopting the innovative approach of viewing borders as phenomena of both closedness and openness. Accordingly, the first part of the book addresses what happens "within" borders, investigating the root causes of the emergence of spatial limits and re-assessing apparent extra-territorial assertions of State power. In turn, the second part not only explores typical borderless spaces, but also more generally considers the exercise of States' and international organisations' powers and prerogatives across or "beyond" borders.
