New Horizons is a four-level upper secondary course that sets achievable goals and builds confidence. New Horizons includes 100% new content and updated exam training to prepare students for the B1 school-leaving exam. A wide range of topics engage teenagers' interest and provide essential vocabulary. Practical grammar exercises

then build students' confidence in communication.

Oxford Discover, Level 3 Oxford University Press, USA

Topic-based units with a great deal of fascinating authentic material about the real world. Innovative 'use-it-first' approach. New language is first presented through a skills activity. This is followed by a 'Looking at Language' box in which students are asked to deduce and practise the grammar rule using the language from the activity. 'Multi-skills' approach, which means that skills are practised together within

activities rather than kept separate, resulting in greater variety and more natural language use. Icons show clearly which skills are being practised. Each unit includes a self-evaluation sheet and self-evaluation quiz. Regular raps, songs and chants provide excellent pronunciation and listening practice in each unit, as well as adding greatly to students' enjoyment of the course.

A high priority is given in each unit to skills work. There are specific sections devoted to listening, reading, speaking and writing. Vocabulary is consistently developed, and there is regular practice in the use of everyday English. The material caters for a wide range of ability. This includes optional 'Extra!' activities for students who finish early; a choice of 'revision' or 'extension' exercises at the end of every two units; and two levels of exercise in the Workbook. The 'Explorations' section at the end of each issue offers students a choice of project work, enabling them to consolidate language and topic work in a way which best suits their interests. A 'Culture zone' section in each issue of the Student's Book provides information about life in Britain and America, and

encourages students to make comparisons with their own culture. 'Learning to learn' sections in the Student's Book and the 'Learning Diary' in the Workbook encourage students to identify how well they are doing, and which areas need more practice. All learners are encouraged to feel they can make a worthwhile contribution, regardless of their level of English.

Your students will be enchanted by award winning author, Paul Shipton's episodic story at the beginning of each

unit and they will want to know what happens next. Written especially for the course, the story introduces key vocabulary at the start of each unit as well as capturing students' attention. Read the stories aloud in class or listen to them on the class audio CDs. Give your students the vocabulary, grammar and practice they need to progress quickly in English. When students use English in the real world they are most likely to want to talk about their own lives and interests, World Quest provides them with the vocabulary and grammar to do this as well as plenty of practice.
