I was very impressed with the quality of the materials. They were so well written and much easier to understand than my previous provider's official texts. So much so that I passed my E2 exam gaining my highest grade so far using Astranti's study text. - Gayle June 2019 Simple, easy to understand and very effective, notes are logical and very easy to follow. - Monique June 2019 I like how it's condensed and easy to read. - Paul December 2020 After having cancelled my P1 and E1 exams because I was failing to understand the concepts under another tuition provider I decided to use Astranti books. These are well explained with detailed examples. I managed to pass my subjects on first time attempts. - Isheunesu December 2021 What I really liked were Astranti's Study texts. They were written in this engaging, interactive way which I personally found very interesting (I usually zone out and get really bored) when I have to read extremely theoretical content. - Clare December 2020 The Astranti study texts have been used by thousands of CIMA students in preparation for their management accountancy exams. They cover the entire CIMA syllabus for the 2019 exams and onwards and have been carefully written to be concise and easy to read but detailed enough to clearly guide you through the topics you must know in order to pass the exams. Prepared by our expert team of professional writers the study texts feature: Full syllabus coverage Clear and simple explanations for ease of understanding Carefully worked step-by-step examples Condensed and focused on likely exam content Linked with our chapter-by-chapter revision questions available to purchase on Astranti.com Go to www.astranti.com to find out more about related CIMA videos, courses and mocks exams.

CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper F2 Financial Management replaces Paper P8 Financial Analysis. The syllabus is very similar to old Paper P8, but students will now meet elementary groups at Paper F1 level prior to studying F2. The syllabus

specifically includes share-based payments and the emphasis of ratios has now changed from calculation to interpretation. The main syllabus areas have been changed to: * Group financial statements * Issues in recognition and measurement * Analysis and interpretation of financial accounts * Developments in external reporting The Study Text focuses on the exam. It provides clear and detailed coverage of the syllabus. Exercises within each chapter cover both basic principles and more detailed issues. In the area of consolidation, these include both complex groups and changes in group structure during the year. Accounting standards are explained and their practical implementation illustrated and tested through appropriate questions.

Are you looking for an engaging, decision-focussed approach to financial reporting that encourages students to develop their interpretative skills? Building on the success of the first edition, this textbook takes a 'how, why, what' approach to financial accounting, interwoven in each chapter. From chapter one, students understand how financial information is prepared and presented, why it is prepared and presented in this way, and what the resulting financial information means for users. Designed for students taking a step beyond their introductory financial accounting training, the textbook equips them with all the key tools they will require when they enter professional practice. Reflective of the latest International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS), this textbook delivers concise, clear explanations of all the key issues in accounting standards that students need to know. Content maps to professional accounting body syllabi, making this the perfect choice for accounting courses which offer exemptions. Chapters are rich with 3 types of examples to enhance understanding: - Illustrative examples of real-world situations; - Worked examples demonstrating the calculation of figures required for financial statements; - Extracts from company annual reports demonstrate how the theory relates to financial reporting in practice. More engaging, more balanced, and more applied than other offerings, this is exactly the textbook your financial reporting students need! An extensive Online Resource Centre accompanies the textbook and includes: For students: DT Solutions to all the end-of-chapter questions in the book including walkthroughs of solutions to key questions; DT Additional graded questions including professional body questions; DT Additional interpretative case studies based on real-life companies; DT A guided tour through a company report DT Specific study skills tips for accounting students For lecturers: DT Customisable PowerPoint slides DT Solutions to all the additional online questions DT Outline solutions to the interpretative case studies DT Group discussion questions

F1 builds on knowledge from paper C2 and introduces tax at a very basic level; it is not based on any tax regime. Financial reporting is a major part of the syllabus, both single company and group accounts are examined in the two '25-mark' questions in section C. New financial reporting topics introduced at this level are: group accounts; construction contracts; financial instruments; and leases. It has four main sections: The principles of business taxation The principles of regulation of financial reporting Preparation of financial statements which conform with IFRS Consolidated financial statements The study text concentrates on the key areas of the syllabus, taking into account the way in which topics are examined. The text has a step-by-step approach to producing financial statements and lots of exercises in which you can practice the workings. We guide you through the more problematic topics which can be brought into the preparation of single company and group financial statements, and give you plenty of examples.
