Simon and Schuster
As constitutional scholar John Nowak noted when the book was first released, "Professor Choper's Judicial Review and the National Political Process is mandatory reading for anyone seriously attempting to study our constitutional system of government. It is an important assessment of the democratic process and the theoretical and practical role of the Supreme Court." That view is no less true today, as borne out by the countless citations to this landmark work over the decades, including scores in the last few years alone. It is simply part of the foundational canon of constitutional law and political theory, an essential part of the library of scholars, students, and educated readers interested in considering the hard choices inherent in what the courts should decide and how they should decide them.

Fear of Missing Out

Simon and Schuster
What are you really missing out on? You're home on a Friday night, scrolling through Instagram, ready to go to bed. You see pictures on your timeline of a party you were invited to, but didn't go to. You were confident when you said no, but now you can't stop thinking about it, and you start feeling worse. You have FOMO, or, Fear of Missing Out. Coined in a Harvard Business School article, FOMO has become a global term to describe the decimating anxiety when thinking other people are having better, more fulfilling, experiences than you are. It's a natural, biological response, but that doesn't make it feel any better. Amplified by the rise of social media, #FOMO has become a cultural crisis—so what's the cure? Patrick McGinnis, creator of the term FOMO, has been thinking about it for seventeen years—and he has a solution: decision-making. Learning to weigh the costs and benefits of your choices, prioritizing your decisions, and listening to your gut are central to silencing FOMO and its lesser-known cousin, FOBO: Fear of a Better Option. After all, don't you want to feel

comfortable and confident in your decisions? Written with self-evaluations throughout the book, *Fear of Missing Out: Practical Decision Making in a World of Overwhelming Choice* helps you ascertain and eliminate the parts of your life that are causing more anxiety than happiness. So give this a read, and then go to that party, start that new book, create a new goal—or don't. Make that decision, and be confident in it: it's the first of many of its kind.

How perverted is Si Ye

Han's taste? He still wants me like this? Waking up, she looked at her reflection in the mirror: explosive wig, tattoos, and demon-like makeup.

Any normal person's eyes would burn if they looked at her for more than a second. Before her rebirth, she was in love with a different guy, so all she wanted to do was escape from Si Ye Han and hated him to his core after being locked up by him. After her rebirth, she looked differently at him, thinking that maybe he changed for the better? In the past, her mind was muddled. She let go of a stunning husband, was hurt by a scumbag and backstabber and most of all, was brainwashed by her most trusted friend. In the end, she was utterly alone. In her current lifetime, there are evil people scheming and eagerly waiting for her downfall. Sorry, but this girl won't fall for the same tricks twice!

H.I.V.E. (Higher Institute of Villainous Education) is a top-secret school of applied villainy where children with a precocious gift for wrongdoing are sent to develop their talents into criminal mastermind. After all, 'villains have the best lines and wear the best

costumes'. One small catch is that the children cannot leave until training is complete, six years later. With villainy comes a certain freedom of thought, and every year one student in particular will show exceptional talent - after all, it takes the best to produce the worst. This year there are two students: Otto Malpense and his new friend Wing Fanchu are both exceptionally bad, and they are definitely not keen on being held against their will for six long years . . .

In the early morning hours of October 1, 1965, a group calling itself the September 30th Movement kidnapped and executed six generals of the Indonesian army, including its highest commander. The group

claimed that it was attempting to preempt a coup, but it was quickly defeated as the senior surviving general, Haji Mohammad Suharto, drove the movement's partisans out of Jakarta. Riding the crest of mass violence, Suharto blamed the Communist Party of Indonesia for masterminding the movement and used the emergency as a pretext for gradually eroding President Sukarno's powers and installing himself as a ruler. Imprisoning and killing hundreds of thousands of alleged communists over the next year, Suharto remade the events of October 1, 1965 into the central event of modern Indonesian history and the cornerstone of his thirty-two-year dictatorship. Despite its importance as a trigger

for one of the twentieth century's worst cases of mass violence, the September 30th Movement has remained shrouded in uncertainty. Who actually masterminded it? What did they hope to achieve? Why did they fail so miserably? And what was the movement's connection to international Cold War politics? In *Pretext for Mass Murder*, John Roosa draws on a wealth of new primary source material to suggest a solution to the mystery behind the movement and the enabling myth of Suharto's repressive regime. His book is a remarkable feat of historical investigation. Finalist, Social Sciences Book Award, the International Convention of Asian Scholars
