In today's competitive world, Spoken English is considered as a passport for success in life. The craze for learning spoken English has led to the growth of coaching

institutes all over the country. Much as they may profess and advertise, it is not really possible to learn any language in 30 days. A person who genuinely wants to learn the language needs to spend two to three hours every day for at least five or six months before he or she would feel confident to communicate in English.

The prime objective of this book is to encourage students to learn English as a tool of communication and to enable them to understand the language thoroughly. The book basically takes off from the learner's point of view and guides them through cooperative learning methods in order to help master the effective

communication skills in English. The book has been divided into four convenient units of Grammar, Pronunciation, Conversation and Vocabulary. Each chapter covers one main area of learning English - explained with examples. Carefully selected and graded exercises have also been included throughout the book to give readers ample practice and a complete understanding of the subject. In short, the book follows the modern functional approach to the

study of English. So readers, it is definitely a one-stop solution for speaking English!

This book is based on the principles of mnemonics and laws of controlled association, and if you apply the principle you will be able to bestride both the world of memory, and world of knowledge simultaneously, giving yourself greater self-confidence, a growing mastery of imagination,

improved creativity, and vastly improved perceptual skills. In fact, education system has created pressure on students in which memory, the technique, by Biswaroop Roy Chowdhury, can provide some rescue. -Dr. A.K. Sharma (Former Director, NCERT) The greatest mystery of life is our ignorance of human brain. In fact, brain is not a dustbin, but a gateway to some higher attainment. This demonstration today by Biswaroop is an assurance that not

everything is lost in the civilization. -Justice M.N. Venkatchelliah (Former Chief Justice of India) Biswaroop's memory technique is surely a help for overburdened students. -Prof. (Dr.) G.R. Sunder (Registrar of Bhartiya Vidya Bhawan) Biswaroop's technique should be a part of school curriculum. -IPS Kiran Bedi Biswaroop's student, Ms. Neerja from Meerut, could recollect the exact details of last six months' issue of India Today. -Hindustan Times. 15 May 2003

This book analyzes how the urban disadvantaged in the city of New Delhi learn English. Using qualitative methods the author discusses the pedagogy, texts and contexts in which biliteracy occurs and links English language teaching and learning in India with the broader social and economic processes of globalization in a

developing country. The study is situated in a government school, a site where classrooms have rarely been qualitatively described, and where the Three Language Formula (TLF) is being fundamentally transformed due to increasing demand from the community for earlier access to the linguistic capital of English. Through research conducted in a call centre the author also shows what the requirements of new workplaces are and how government schools

are trying to meet this demand.

English Speaking Course is the only speaking course of its kind whose features can be described in superlative degree only. It has already benefited millions of readers across the country. Experts have unanimously declared it as the best self-study course. Perhaps that is the reason that for over 15 years it has constantly been on the top of the best sellers list in the market. Many people, who have good command over the language and are well are of its grammar and composition, can't speak the language fluently. Why? The answer is simple. While speaking they try to construct a sentence in their mother language and do the mental translation before uttering a single line. This

creates not only confusion but utter chaos in their mind. As a result they feel great hesitation to speak simple sentences. In some cases, however, the problem is more complex, as they lack the basic knowledge of the English language. Rapidex English Speaking Course takes care of both the cases. So, what are you waiting for? Go ahead and discover the secret of fluency in English speaking. Explore and develop your hidden potential and face the world with a new-found confidence and

smartness. Only the sky should be your limit. India is a vast country of continental size. Despite increasing literacy, English continues to be the link language for want of acceptable language within the country.

However, Hindi still remains the language of the masses, spoken by more than half the population and understood by nearly three-fourths. Although Hindi is taught in school syllabi, its purpose is

purely academic that hardly serves to promote national unity through ease in conversation.

Understanding this need in filling this disjointed gap, V&S Publishers has taken the first fledging step by deciding to bring out a conversational Indian Language series, beginning with Telugu-to-Hindi module, in the name of "e;sampurna vyakaran sahit....."e;After years of research and hard work and supported by knowledgeable persons of literary taste, we have come out with this unique

volume that is significantly different from all the other language learning courses out there. The major difference: this module format also provides the basics of grammar which are absent from all the other titles in the market. These basics of grammar not only provide knowledge base of the language, but also enable an individual to learn the language while speaking it.
